Division, Yavatmal, as per the Tender Schedule. Further information regarding the work can be obtained from the above office.
The Tender Fee in the form of DD / Pay Order, Drawn in the name of Executive Engineer, Special Projects (P.W.) Division, Yavatmal, E.M.D. in form of TDR in the name of Executive Engineer, Special Projects (P.W.) Division, Yavatmal or Attested EMD Exemption certificate & Affidavit should be submitted by Registered Post/Courier service in sealed covers addressed to the Executive Engineer, Special Projects (P.W.) Division, Yavatmal, with the name of the work written at the top of the envelope will be received in the office of the Executive Engineer, Special Projects (P.W.) Division, Yavatmal, as per the Tender Schedule. Bids will be opened as per the Tender Schedule, in the presence of such intending Tenderers or his/ their authorized representatives who may be present at that time.

**TENDERING PROCEDURE:**

1. **1.1 A. Blank Tender Forms.**
   
   Tender Forms can be downloaded from the e’tendering Portal of Public Works Department, Government of Maharashtra i.e. https://pwd.maharashtra.etenders.in after entering the details of payment towards Tender Fees as per the Tender Schedule.

1. **1.2 B PRE-TENDER CONFERENCE:**

   1.2.1 Pre-tender conference open to all prospective tenderers who have downloaded tender form before the date of Pre-tender Conference, will be held at Yavatmal on---- @ 00.00 Hrs. in the office of the Chief Engineer, Public Works Region, Amravati wherein prospective Tenderers will have an opportunity to obtain clarifications regarding the work and the Tender Conditions.

   1.2.2 The prospective tenderers are free to ask for any additional information or clarification either in writing or orally concerning the work, and the reply to the same will be published on line on the e-tendering portal i.e. https://pwd.maharashtra.etenders.in by the Chief Engineer, Public Works Region, Amravati, and this clarification referred to as Common Set of Conditions/Deviations (C.S.D.), shall form part of tender documents and which will also be common and applicable to all tenderers. The point/points if any raised in writing and/or verbally by the contractor in pre-tender conference and not finding place in C.S.D. issued after the pre-bid conference, is/are deemed rejected. In such case the provision in NIT shall prevail. No individual correspondence will be made thereafter with the contractor in this regard.
1.2.3 The tender submitted by the tenderer shall be based on the clarification, additional facility offered (if any) by the Department, and this tender shall be unconditional. Conditional tenders shall be summarily REJECTED.

1.2.4 All tenderers are cautioned that tenders containing any deviation from the contractual terms and conditions, specifications or other requirements and conditional tenders will be treated as non responsive. The tenderer should clearly mention in forwarding letter that his offer (in envelope No. 1 & 2) does not contain any conditions, deviations from terms and conditions stipulated in the tender.

1.2.5 Tenderers should have valid Class III & above Digital Signature Certificate (DSC) obtained from any Certifying Authorities. In case of requirement of DSC, interested Bidders should go to https://maharashtra.etenders.in/mah/DigitalCerti.asp and follow the procedure mentioned in the document ‘Procedure for application of Digital Certificate’.

1.2.6 The Tenderers have to make a payment of Rs 1038/- online as service charges for the use of Electronic Tendering during Online Bid Data Decryption and Re-encryption stage of the Tender.

1.2.7 For any assistance on the use of Electronic Tendering System, the Users may call the below numbers:

- **Landline No.** - 020 - 2531 5555 / 56
- **Landline No.** - 022 - 2661 1117 (Ext 25 / 26)
- **Mobile No.** - 91679 69601 / 04 / 14

1.2.8 Tenderers should install the Mandatory Components available on the Home Page of https://maharashtra.etenders.in under the section ‘Mandatory Components’ and make the necessary Browser Settings provided under section ‘Internet Explorer Settings’

1.3 Guidelines to Bidders on the operations of Electronic Tendering System of Public Works Department is available at E-Tendering portal of P. W. Department i.e. https://pwd.maharashtra.etenders.in. The tenderer shall obtain
clarification/help from assistance mentioned in Para 1.2.7. No grievances/claims will be entertained on failure of submission of online bid.

A. Pre-requisites to participate in the Tenders processed by PWD:

1. Enrolment and Empanelment of Contractors on Electronic Tendering System:

The Contractors interested in participating in the Tenders of Public Works Department – processed using the Electronic Tendering System shall be required to enroll on the Electronic Tendering System to obtain User ID.

After submission of application for enrolment on the System, the application information shall be verified by the Authorized Representative of the Service Provider. If the information is found to be complete, the enrolment submitted by the Vendor shall be approved.

For participating in Limited and Restricted tenders the registered vendors have to apply for empanelment on the sub-portal of PWD in an appropriate class of registration. The empanelment will have to be approved by the respective officer from the PWD. Only empanelled vendors will be allowed to participate in such tenders.

The Contractors may obtain the necessary information on the process of enrolment and empanelment either from Helpdesk Support Team or may visit the information published under the link Enroll under the section E-Tendering Toolkit for Bidders on the Home Page of the Electronic Tendering System.

2. Obtaining a Digital Certificate:

The Bid Data that is prepared online is required to be encrypted and the hash value of the Bid Data is required to be signed electronically using a Digital Certificate (Class – II or Class – III). This is required to maintain the security of the Bid Data and also to establish the identity of the Contractor transacting on the System.

The Digital Certificates are issued by an approved Certifying Authority authorized by the Controller of Certifying Authorities of Government of India through their Authorized Representatives upon receipt of documents required to obtain a Digital Certificate.

Bid data / information for a particular Tender may be submitted only using the Digital Certificate which is used to encrypt the data / information and sign the hash value during the Bid Preparation and Hash Submission stage.
In case during the process of preparing and submitting a Bid for a particular Tender, the Contractor loses his/her Digital Signature Certificate (i.e. due to virus attack, hardware problem, operating system problem); he / she may not be able to submit the Bid online. Hence, the Users are advised to store his / her Digital Certificate securely and if possible, keep a backup at safe place under adequate security to be used in case of need.

In case of online tendering, if the Digital Certificate issued to an Authorised User of a Partnership Firm is used for signing and submitting a bid, it will be considered equivalent to a no objection certificate / power of attorney to that User to submit the bid on behalf of the Partnership Firm. The Partnership Firm has to authorize a specific individual via an authorization certificate signed by a partner of the firm (and in case the applicant is a partner, another partner in the same form is required to authorise) to use the digital certificate as per Indian Information Technology Act, 2000.

Unless the Digital Certificate is revoked, it will be assumed to represent adequate authority of the Authority User to bid on behalf of the Firm for the Tenders processed on the Electronic Tender Management System of Government of Maharashtra as per Indian Information Technology Act, 2000. The Digital Signature of this Authorized User will be binding on the Firm. It shall be the responsibility of Partners of the Firm to inform the Certifying Authority or Sub Certifying Authority, if the Authorized User changes, and apply for a fresh Digital Signature Certificate. The procedure for application of a Digital Signature Certificate will remain the same for the new Authorised User.

The same procedure holds true for the Authorized Users in a Private / Public Limited Company. In this case, the Authorisation Certificate will have to be signed by the Director of the Company or the Reporting Authority of the Applicant.

For information on the process of application for obtaining Digital Certificate, the Contractors may visit the section Digital Certificate on the Home Page of the Electronic Tendering System.
3. Recommended Hardware and Internet Connectivity:
To operate on the Electronic Tendering System, the Contractors are recommended to use Computer System with at least 1 GB of RAM and broadband connectivity with minimum 512 kbps bandwidth.

4. Set up of Computer System for executing the operations on the Electronic Tendering System:
To operate on the Electronic Tendering System of Government of Maharashtra, the Computer System of the Contractors is required be set up. The Contractors are required to install Utilities available under the section Mandatory Installation Components on the Home Page of the System. The Utilities are available for download freely from the above mentioned section. The Contractors are requested to refer to the E-Tendering Toolkit for Bidders available online on the Home Page to understand the process of setting up the System, or alternatively, contact the Helpdesk Support Team on information / guidance on the process of setting up the System.

5. Payment for Service Provider Fees:
In addition to the Tender Document Fees payable to PWD, the Contractors will have to pay Service Providers Fees of Rs. 1,038/- through online payments gateway service available on Electronic Tendering System. For the list of options for making online payments, the Contractors are advised to visit the link E-Payment Options under the section E-Tendering Toolkit for Bidders on the Home Page of the Electronic Tendering System.

B. Steps to be followed by Contractors to participate in the e-Tenders processed by PWD
1. Preparation of online Briefcase:
All Contractors enrolled on the Electronic Tendering System of Government of Maharashtra are provided with dedicated briefcase facility to store documents / files in digital format. The Contractors can use the online briefcase to store their scanned copies of frequently used documents / files to be submitted as a part of their bid response. The Contractors are advised to store the relevant documents in the briefcase before starting the Bid Preparation and Hash Submission stage. In case, the Contractors have multiple documents under the same type (e.g. multiple Work Completion Certificates) as mentioned above, the Contractors
advised to either create a single .pdf file of all the documents of same type or compress the documents in a single compressed file in .zip or .rar formats and upload the same.

It is mandatory to upload the documents using the briefcase facility. Therefore, the Contractors are advised to keep the documents ready in the briefcase to ensure timely bid preparation.

**Note:** Uploading of documents in the briefcase does not mean that the documents are available to PWD at the time of Tender Opening stage unless the documents are specifically attached to the bid during the online Bid Preparation and Hash Submission stage as well as during Decryption and Re-encryption stage.

2. **Online viewing of Detailed Notice Inviting Tenders:**

   The Contractors can view the Detailed Tender Notice along with the Time Schedule (Key Dates) for all the Live Tenders released by PWD on the home page of PWD e-Tendering Portal on https://pwd.maharashtra.etenders.in under the section Recent Online Tender.

3. **Download of Tender Documents:**

   The Pre-qualification / Main Bidding Documents are available for free downloading. However to participate in the online tender, the bidder must purchase the bidding documents online by filling up details of Demand Draft towards the cost of Tender Form Fee.

4. **Online Bid Preparation and Submission of Bid Hash (Seal) of Bids:**

   Submission of Bids will be preceded by online bid preparation and submission of the digitally signed Bid Hashes (Seals) within the Tender Time Schedule (Key Dates) published in the Detailed Notice Inviting Tender. The Bid Data is to be prepared in the templates provided by the Tendering Authority of PWD. The templates may be either form based, extensible tables and / or up loadable documents. In the form based type of templates and extensible table type of templates, the Contractors are required to enter the data and encrypt the data using the Digital Certificate.

   In the up loadable document type of templates, the Contractors are required to select the relevant document / compressed file (containing multiple documents) already uploaded in the briefcase.
Notes:

a. The Contractors upload a single document or a compressed file containing multiple documents against each unloadable option.

b. **Digitally signing the documents to be uploaded**

   The Contractors can scan the documents in any format viz. jpeg, jpg, bmp, tif, pdf etc. However, avoid scanning the documents in pdf format. It is not mandatory to upload all the documents with digital signature using Microsoft word/Excel.

   The brief procedure for same is given below.
   1. Open Microsoft word/Excel.
   2. Insert the scanned pages one by one
   3. Save the document by assigning a file name
   4. Go to office button
   5. Select prepare
   6. Then add digital signature

c. The Hashes are the thumbprint of electronic data and are based on one-way algorithm. The Hashes establish the unique identity of Bid Data.

d. The bid hash values are digitally signed using valid Class – II or Class – III Digital Certificate issued by any Certifying Authority. The Contractors are required to obtain Digital Certificate in advance.

e. After the hash value of bid data is generated, the Contractors cannot make any change / addition in its bid data. The bidder may modify bids before the deadline for Bid Preparation and Hash Submission as per Time Schedule mentioned in the Tender documents.

f. This stage will be applicable during both, Pre-bid / Pre-qualification and Financial Bidding Processes.

5. **Close for Bidding (Generation of Super Hash Values):**

   After the expiry of the cut-off time of Bid Preparation and Hash Submission stage to be completed by the Contractors has lapsed, the Tender will be closed by the Tender Authority.

   The Tender Authority from PWD shall generate and digitally sign the Super Hash values (Seals).
6. **Decryption and Re-encryption of Bids (submitting the Bids online):**

   After the time for generation of Super Hash values by the Tender Authority from PWD has lapsed, the Contractors have to make the online payment of Rs. 1,038/- towards the fees of the Service Provider.

   After making online payment towards Fees of Service Provider, the Contractors are required to decrypt their bid data using their Digital Certificate and immediately re-encrypt their bid data using the Public Key of the Tendering Authority. The Public Key of the Tendering Authority is attached to the Tender during the **Close for Bidding** stage.

   **Note:** The details of the Processing Fees shall be verified and matched during the Technical Opening stage.

   At this time, the Contractors are also required to upload the files for which they generated the Hash values during the Bid Preparation and Hash Submission stage.

   The Bid Data and Documents of only those Contractors who have submitted their Bid Hashes (Seals) within the stipulated time (as per the Tender Time Schedule), will be available for decryption and re-encryption and to upload the relevant documents from Briefcase. A Contractor who has not submitted his Bid Preparation and Hash Submission stage within the stipulated time will not be allowed to decrypt / re-encrypt the Bid data / submit documents during the stage of Decryption and Re-encryption of Bids (submitting the Bids online).

7. **Short listing of Contractors for Financial Bidding Process:**

   The Tendering Authority will first open the Technical Bid documents online of all Contractors and after scrutinizing these documents will shortlist the Contractors who are eligible for Financial Bidding Process. The shortlisted Contractors will be intimated by email.

8. **Opening of the Financial Bids:**

   The Contractors may remain present in the Office of the Tender Opening Authority at the time of opening of Financial Bids. However, the results of the Financial Bids of all Contractors shall be available on the PWD e-Tendering Portal immediately after the completion of opening process.
9. **Tender Schedule (Key Dates):**

The Contractors are strictly advised to follow the Dates and Times allocated to each stage under the column “Contractor Stage” as indicated in the Time Schedule in the Detailed Tender Notice for the Tender. All the online activities are time tracked and the Electronic Tendering System enforces time-locks that ensure that no activity or transaction can take place outside the Start and End Dates and Time of the stage as defined in the Tender Schedule.

At the sole discretion of the Tender Authority, the time schedule of the Tender stages may be extended.
A) **Civil Works**

**ENVELOPE No. 1: (Documents)**

The first envelope “**Envelope No. 1**” shall contain the following Scanned and digitally signed documents of civil as well as electrical work dully attested by P.W.D. Deputy Engineer Govt. of Maharashtra service.

<table>

</table>
i) Scanned copy of List of technical personnel on roll of the tenderer at present and those likely to be appointed for this work in future. (Form-III)

ii) Scanned of list of machinery available with the tenderer which will be used exclusively for this work .(Form No.IV)

9. Scanned copy the documentary proof of owning machineries as stated in Statement No. 2-A. Page No. 27 & 28

10. The documentary proof of owning following machineries like,
    a) Drum Mix Hot Mix Plant of 40 - 60 MT/Hr. - b) Paver finisher - 1 No.
    c) Bitumen sprayer - 1No. d) Vibratory Roller - 1 No. e) Static Roller - 1 No.

    The relevant document should enclosed in envelope No.1

    A) The Contractor should certify that they have own hotmix plant and machineries within the 60 Km. distance from the work site, so as to maintain temperature of mix.

    B) The Drum Mix Hot Mix Plant should be certified by Asst. C. E. Mechanical P.W.D. Regarding Working Of the Plant since not more than one year.

    Sketch/Map showing the distance between the work site & plant site with Km. number be enclosed to verify the distance. Sketch map shall be certified by the Deputy Engineer of PWD.

1.5 **ENVELOPE No. 2 TENDER  (FINANCIAL BID)**

   The second envelope “Envelope No. 2” shall contain only the main tender including the Common Set of Conditions / Deviation issued by the Department after the pre-tender Conference. A tender submitted without this would be considered as invalid.

   The Tenderer should quote his offer online only in terms of percentage of estimated rates at the appropriate place (Page No.35) to be submitted only in Envelope No. 2. He should not quote his offer anywhere directly or indirectly in Envelope No. 1. The contractor shall quote for the work as per details given in the main tender and also based on the detailed set of conditions issued / Additional stipulations made by the Department as informed to him online on https://pwd.maharashtra.etenders.in by Chief Engineer, Public Works Region, Amravati after Pre-Tender Conference. His tender shall be unconditional.

1.6 **SUBMISSION OF TENDER: -**

   Refer to Section ‘Guidelines to Bidders on the operations of Electronic Tendering System of Public Works Department’ for details.

1.7 **OPENING OF TENDERS:**

Contractor

No of correction

Executive Engineer
On the date, specified in the Tender Schedule, following procedure will be adopted for opening of the Tender.

(A) ENVELOPE No. 1 : - ( Documents )
First of all Envelope No. 1 of the tender will be opened online to verify its contents as per requirements. If the various documents contained in this envelope do not meet the requirements of the Department, a note will be recorded accordingly by the tender opening authority and the said tenderers Envelope No. 2 will not be considered for further action and the same will be recorded.

The decision of the tender opening authority in this regard will be final and binding on the contractors.

(B) ENVELOPE No. 2: (Financial Bid)

a) This envelope shall be opened online immediately after opening of Envelope No. 1, only if contents of Envelope No. 1 are found to be acceptable to the Department. The tendered rates in Schedule ‘B’ or percentage above/below the estimated rates shall then be read out. (From Page No.35) in the presence of bidders who remain present at the time of opening of Envelope No. 2,(commercial Bid).

1.8 EARNEST MONEY :
As shown on page No. 2, Earnest Money should be submitted as per the tender schedule. Earnest money in the form of cheque or cash will not be accepted. Earnest money will be accepted in the form of certificate of exemption from payment of Earnest Money, or Term Deposit receipts valid for a period of one year (separately for each work) from the last date of submission of tender forms, issued by scheduled Bank and endorsed in the name of the Executive Engineer, Special Projects (P.W.) Division, Yavatmal. The earnest money will be refunded in due course in case of tenderers whose tenders are not accepted. In case of successful tenderer the Earnest money will be refunded after recovering initial security deposit and completion of contract documents by the Tenderer. The amount of Earnest Money will be forfeited to Government in case the successful contractor does not pay the amount of initial security deposit within specified time limit. Earnest Money Exemption Certificate shall not be accepted in lieu of Earnest Money indicated elsewhere in the N.I.T. except in case of those bidders who have obtained Earnest Money exemption certificate to their Registration authorities after issuance of Government Resolution CAT - 1096/CR -172/Bldg-2 Dated 20/4/98.

1.9 SECURITY DEPOSIT:

The successful tenderer shall have to pay half the security deposit in approved security form (preferably in the form of National Saving Certificate) or in cash or in the form of Bank Guarantee (in the form as prescribed by Government) from any Schedule Bank having branches in Maharashtra and balance Security
Deposit will be recoverable through the bills at the percentage as shown in item(s) of the Memorandum in printed B-1 form or as may be decided by the Executive Engineer during course of execution of the work looking to the position and circumstances that may prevail, whose orders will be final and binding on the contractor.

The security deposit for the due performance of the contract shall be as detailed in the Tender Documents elsewhere, Fifty percent of the security deposit will have to be deposited within time limit as prescribed in clause-1 of B-1 form agreement and the remaining fifty percent will be recovered from the Running Bills at the rate of 4%. Amount of total security deposit to be paid shall be 4% of the cost of work. This is a compulsory deduction.

1.9. **ADDITIONAL SECURITY DEPOSIT:**

If the offer of the successful tenderer is 10% or more than 10% below the amount put to tender, then the successful tenderer whose tender is accepted will have to deposit additional security deposit amount equivalent to 5% of the amount put to tender contract price toward performance of work. This additional security deposit shall be deposited in cash /FDR of schedule Bank having branches in Maharashtra duly pledged in the name of **Executive Engineer, Special Projects (P.W.) Division, Yavatmal** at the time of acceptance of tender.. This additional security deposit towards performance shall be valid for full period of completion of work including defect liability period. Failing which such tender shall be deemed to be withdrawn and their earnest money shall be forfeited to the Govt. The additional security deposit shall be refunded within 30 days from the date of issue of satisfactory completion of defect liability period.

1.10 **ISSUE OF FORMS:**

Information regarding contract as well as blank tender forms can be downloaded from the e-Tendering website upon providing the details of the payment of cost as detailed in the N.I.T.

1.11 **TIME LIMIT:**

The work is to be completed within time limit as specified in the N.I.T. which shall be reckoned from the date of written order for commencing the work and shall be inclusive of monsoon period.

1.12 **TENDER RATE:**

No alteration in the form of tender and the schedule of tender and no additions in the scope of special stipulations will be permitted. Rates quoted for the tender shall be taken as applicable for all leads and lifts.

1.13 **TENDER UNITS:**

The tenderers should particularly note the units mentioned in the Schedule “B” on which the rates are based. No change in the units shall be allowed. In the case of difference between the rates written in figures and in words, the correct rate will be the one, which is lower of the two.
1.14 **CORRECTION:**
No corrections shall be made in the tender documents. Any corrections that are to be made shall be made by crossing the incorrect portion and writing the correct portions above with the initials of tenderer.

1.15 **TENDER’S ACCEPTANCE:**
Acceptance of tender will rest with the **Superintending Engineer, Public Works Circle Yavatmal** who reserves the right to reject any or all tenders without assigning any reason therefore. The tenderer whose tender is accepted will have to enter into a regular B-1 agreement within 10 days of being notified to do so. In case of failure on the part of Tenderer to sign the agreement within the stipulated time, the earnest money paid by him shall stand forfeited to the Government and the offer of the tenderer shall be considered as withdrawn by him.

1.16 **CONDITIONAL TENDER:**
The tenders who do not fulfill the condition of the notification and the general rules and directions for the guidance of contractor in the agreement form or are incomplete in any respect are likely to be rejected without assigning any reason therefore.

1.17(a) The Tenderers shall be presumed to have carefully examined the drawings, conditions and specifications of the work and have fully acquainted themselves with all details of the site, the conditions of rock and its joints, pattern, river, weather characteristics, labour conditions and in general with all the necessary information and data pertaining to the work, prior to tendering for the work.

1.17(b) The data whatsoever supplied by the Department along with the tender documents are meant to serve only as guide for the tenderers while tendering and the Department accepts no responsibility whatsoever either or the accuracy of data or for their comprehensiveness.

1.17(c) The quarries for extraction of metal, murum etc. provided in the sanctioned estimate are as per survey conducted by the Department. The Contractor should however examine these quarries and see whether full quantity of materials required for execution of the work strictly as per specification are available in these source before quoting the rates. In case the materials are not available due to reasons whatsoever, the contractor will have to bring the materials from any other source with no extra cost to Government. The rates quoted, should therefore be for all leads and lifts from wherever the materials are brought at site of work and inclusive of royalty to be paid to the Revenue Department by the Contractor.

Contractor
No of correction
Executive Engineer
1.18 **POWER OF ATTORNEY:**

If the tenderers are a firm or company, they should in their forwarding letter mention the names of all the partners together with the name of the person who holds the power of Attorney, authorizing him to conduct all transactions on behalf of the body, along with the tender.

1.19 The tenderer may, in the forwarding letter, mention any points are may wish to make clear but the right is reserved to reject the same or the whole of the tender if the same becomes conditional tender thereby.

1.20 The contractor or the firms tendering for the work shall inform the Department if they appoint their authorized Agent on the work.

1.21 No foreign exchange will be released by the Department for the purchase of plants and machinery for the work by the Contractor.

1.22 Any dues arising out of contract will be recovered from the contractor as arrears of Land Revenue, if not paid amicably. Moreover, recovery of Government dues from the Contractors will be affected from the payment due to the Contractor from any other Government works under execution with them.

1.23 All pages of tender documents, conditions, specifications, correction slips etc. shall be initialed by the tenderer. The tender should bear full signature of the tenderer, or his authorized power of Attorney holder in case of a firm.

1.24 The Income Tax @ 1% or 2% including surcharge or percentage in force from time to time or at the rate as intimated by the competent Income Tax authority shall be deducted from bill amount whether measured bill, advance payment or secured advance.

1.25 The successful tenderer will be required to produce, to the satisfaction of the specified concerned authority a valid concurrent license issued in his favour under the provisions of the Contract Labour (Regulation and Abolition) Act 1970 for starting the work. On failure to do so, the acceptance of the tender shall be liable to be withdrawn and also liable for forfeiture of the earnest money.

1.26 **VALIDITY PERIOD**

The offer shall remain open for acceptance for minimum period of 90 days from the Date of opening of Envelope No. 2 (Financial Bid) and thereafter until it is withdrawn by the contractor by notice in writing duly addressed to the authority opening the tender and sent by Registered Post Acknowledgment due. (Ref. to memorandum on Page 36 of B-1 Form Chapter).
1.27) Important Points to be noted by the Tenderer:

A) i) The offer in percentage should be quoted both in words and in figures in the tender form. In case of deviation, the lowest percentage either in words or figures will be considered.
   
   ii) The offer shall be inclusive of all prevailing taxes, i.e. octroi, Royalty charges etc. to be paid by the tenderer for the work and the claims for payment on any such account shall not be entertained.
   
   iii) The tenderer shall be deemed to have studied all plans/specifications/terms/conditions of the tender and made himself/themselves acquainted with the site conditions and availability of labour, basic materials, water, electricity etc. before submitting the tender. A Declaration to this effect shall be digitally signed by the tenderer in the form attached with the tender.
   
   iv) The Contractor’s offer shall include all Insurance Policies as stated in Additional Tender condition at Sl No 10 and 10(A) on Page No 117 of tender Document. No claim on this account will be entertained.

B) In case any clarification is required, the tenderer may obtain it personally or in writing well in advance from the Executive Engineer. In any case, the tenderer will be responsible to bind himself/themselves to the terms and conditions and specifications of the tender once submitted by him/them.

C) The tender is liable for outright rejection if on opening, it is found that
   
   i) Any one or more of the mandatory documents required as per Para 1.4 is or are missing.
   
   ii) Any corrections, additions or alterations are made by the tenderer on any page of the tender.
   
   iii) Any pages are missing.
   
   iv) The copies of certificate/documents not attested by the Deputy Engineer of P.W.D.

D) Amendment of Bidding Documents

1) Before the deadline for submission of tender, the Employer may modify the tender documents by issuing addenda / corrigendum

2) Any addendum / corrigendum thus issued shall be part of the tender documents and shall be communicated online at E-Tendering portal of P.W. Department i.e. https://pwd.maharashtra.etenders.in

3) To give prospective tenderers reasonable time in which to take an addendum into account in preparing their bids, the Employer may, at his discretion, extend as necessary the deadline for submission of tender.

4) Acceptance of the tender rests with the competent authority who reserves the right to reject any or all tenders without assigning any reasons thereof.

5) This detailed tender notice shall form part of tender documents.

6) The Income Tax including surcharge @2.00% or percentage in force from time to time or at the rate as intimated by the competent Income Tax authority shall be deducted from the contractor from the gross bill amount of every bill, whether for measured work or advance payment and/or secured advance.

7) The successful tenderer will be required to produce to the satisfaction of the specified concerned authority valid and current license issued in his favour under the provisions of Contract Labour (Regulation and Abolition) Act 1970 before
starting the work. On failure to do so the acceptance of the tender shall be liable to be withdrawn and also liable for forfeiture of the earnest money.

8) Any dues arising out of contract will be recovered from the contractor as arrears of Land Revenue if not paid amicably. Moreover, recovery of Government dues from the contractors will be effected from the payment due to the Contractor from any other Government works under execution with them.

9) Value Added Tax deduction 2% from the registered contractors under the MVAT Act 2005 and 4% from the unregistered contractors under MVAT Act, 2005 shall be recovered from the contractors from the gross bill amount of every bill, whether for measured works or advance payment or secured advance.

10) Maharashtra Sales Tax transfer of property in good involved in the execution of work contract (reenacted) act 1984 amended provision in the 1989 act by the Maharashtra act 1 of 2000 published in Govt. Gazette on 1st January 2000 will be applicable. The levy of this tax if any shall however be in accordance to the notification issued by the Govt. from time to time.

11) As per the Govt. Resolution No. BCA 2009/CR108/Labour 7A Mantralalya Mumbai dated 17/06/2010, the workers welfare cess @ 1% will be deducted from the gross bill amount of every bill either for measured work for advance payment and/or secured advance.

12) All disputes arising out of or in any way connected with this agreement shall be deemed to have arisen @ head quarter of Executive Engineer, Special Projects (P.W.) Division, Yavatmal and only the Court @ Head Quarter of Executive Engineer, Special Projects (P.W.) Division, Yavatmal shall have jurisdiction to try and adjudicate over them.

13) As per Government instruction, it is proposed to make payment of Contractor bills through ECS / NEAFT / RTGS System. For this purpose Contractor should open his Bank account in a bank having core banking facility only.

14) As per instruction issued vide P.W.D. Government of Maharashtra Resolution of Revenue and Forest Department No. Gaukhani – 1010/109+/CR – 309 /Kh (1) dated. 11/2/2010 while framing the estimates, royalty charges for the items of supply of materials like rubble, metal, crushed metal, soft murum / hard murum, sand and soil shall be considered in the rate analysis of respective items @ 70.68 per Cubic Meter (RS, 200.00 per brass ) or actual and shall be recovered.

15) The contractor has to pay these charges directly to Revenue Department and original challans, permission documents shall be produced to concerned Executive Engineer, If contractor fails to produce these original documents the royalty charges shall be recovered from contractor’s bill.

E) EXAMINATION OF DRAWING AND SITE CONDITIONS:
The tenderers shall, in his own interest carefully examine the drawings, conditions of contract and specifications etc. He shall also inspect the site and acquaint himself about the climate, physical and all climatic conditions prevailing at site, the nature magnitude, special features, and practicability of the work. All existing and required means of communications and access to site, availability of housing and other facilities,
the availability of labour and materials, labour camp site, stores, godown etc. He shall obtain all necessary information as to the risk, contingencies and other circumstances which may affect and influence the tender. No claims on any of the above or any other factors will be entertained by the Government should there be any discrepancy or doubt or obscurity to be observed by him, he shall set forth in writing such discrepancies, doubts, obscurity and submit the same to the Executive Engineer, Special Projects (P.W.) Division, Yavatmal for elucidation as soon as possible.

**F) CONTRACT DRAWINGS :-**

The Contract Drawings provided for tendering purpose with the tender documents shall be used as a reference only. Contractor should visualize the nature and type of work contemplated and to ensure that the rates and prices quoted by him in the bill of quantities take due consideration of the complexities of work involved during actual execution / construction as experienced contractors in the field. The tendered rates / prices for the work shall be deemed to include the cost of preparation, supply and delivery of all necessary drawings, prints, tracings and negatives which the contractor is required to provide in accordance with the contract.

**G) DOCUMENTATION:**

If so ordered by the Engineer-in-charge, the contractor will prepare drawings of the work as constructed and will supply original and three copies to the Engineer who will verify and certify these drawings. Final as constructed drawings shall then be prepared by the contractor and supplied in triplicate along with soft copy of the same to Engineer for record and reference purpose at the contractors cost.

**H) As per Government instructions, it is proposed to make payment of Contractors bills through ECS / NEFT System. For this purpose Contractor should open his Bank account in a bank having core banking facility only.**

**I) The contractor shall pay the royalty charges directly to Revenue Department and original challans, permission documents shall be produced to concerned Executive Engineer along with bills, If contractor fails to produce these original documents the royalty charges at prevailing rates shall be recovered from contractor’s bill and will be adjusted to the concerned Head of Account.**

**(J) Statement No. 2-A**

(Applicable to works for which use of specialized machinery for asphalting/concrete work is specified)

**J1) Questionnaire on Machinery:**

Information regarding availability and ownership of following machinery required for this work.
a) MACHINERY TO BE OWNED BY CONTRACTOR:-

<table>
<thead>
<tr>
<th>Sl. No.</th>
<th>Particulars of Machinery.</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

(J2) STATEMENT NO.2-B

Give the following information of above machineries and plants.

QUESTION-1

1. Is the above listed machinery owned by you and available with you for immediate deployment on this work? (Yes/No)

If “Yes” give following information and Enclose copy of document of ownership.

Give Information in this sample form.

<table>
<thead>
<tr>
<th>Type of machinery</th>
<th>No. of Unit</th>
<th>Name of work on which equipment deployed at present</th>
<th>Location</th>
<th>Output</th>
<th>Balance quantity in tons for execution of work in hand</th>
</tr>
</thead>
</table>

(a) The machineries specified under sr. no a) 1 to 5 above shall be owned by the contractor. The scanned and digitally signed copy of ownership documents of the above machineries shall be submitted in envelope no. 1, failing which envelope no. 2 shall not be opened. If machineries under sr. no a) 1to 5 not owned by contractor then firm order placed with the manufacturing company along with attested copy of receipt towards payment made with company shall be furnished in envelop no. 1, failing which envelope no. 2 shall not be opened.
PERCENTAGE RATE TENDER AND CONTRACT FOR WORK.

General Rules And Directions For The Guidance Of Contractors.

1) All work proposed to be executed by contract shall be notified in a form of invitation to tender online E tendering system also pasted on a board hung up in the office of the Executive Engineer and signed by the Executive Engineer, Special Projects (P.W.) Division, Yavatmal. The form will state the work to be carried out as well as the date for submitting and opening tenders and the time allowed for carrying out the work, also the amount of earnest money to be deposited with the tender, and the amount of security deposit to be deposited by the successful tenderer and the percentage, if any, to be deducted from bills. Copies of the specifications, designs and drawings and estimated rates, scheduled rates and any other documents required in connection with the work which will be signed by the Executive Engineer for the purpose of identification shall also be opened for inspection by contractors in the office of the Executive Engineer during office hours.

2) In the event of the tender being submitted by a firm, it must be signed separately by each partner thereof, and in the event of the absence of any partner it shall be signed on his behalf by a person holding a power of attorney authorizing him to do so.

2 (A) (i) The Contractor shall pay alongwith the Tender the sum of Rs. **28,200/-** as and by way of earnest money. The contractor may pay the said amount by forwarding alongwith the tender a Term Deposit Receipt for a period of one year issued by a scheduled Bank for the said amount and duly endorsed in the name of **Executive Engineer, Special Projects (P.W.) Division, Yavatmal.** The said amount of earnest money shall not carry any interest whatsoever.

ii) In the event of his tender being accepted, subject to the provision of sub clause (iii) below, the said amount of earnest money shall be appropriated/adjusted towards the amount of security deposit payable by him under condition of General Conditions of Contract.
iii) If after submitting the tender, the contractor withdraws his offer or modifies the same or if after the acceptance of his Tender, the Contractor fails or neglects to furnish the balance of security deposit, without prejudice to any other rights and powers of the Government hereunder, or in law, Government shall be entitled to forfeit the full amount of the earnest money deposited by him.

iv) In the event of his Tender not being accepted, the amount of earnest money deposited by the contractor shall, unless, it is prior there to forfeited under the provisions of sub-clause (iii) above, be refunded to him on his passing receipt therefore.

3) Receipt for payments made on account of any work, when executed by a firm should also be signed by all the partners, except where the contractors are described in their tender as a firm, in which case the receipts shall be signed in the name of the firm by one of the partners, or by some other person having authority to give effectual receipts for the firm.

4) Any person who submits a tender shall fill up the form online including stating at what percentage above or below the rates specified in Schedule "B" he is willing to undertake the work. Tenders which propose any alteration in the work specified in the said form of invitation to tender, or in the time allowed for carrying out the work, or which contain any other conditions of any sort, will be liable to rejection. No single tender shall include more than one work, but contractor who wish to tender for two or more works shall submit a separate tender for each work.

5) The Executive Engineer, Special Project (P.W.) Division Yavatmal will open tenders online in the presence of any intending contractors who may be present at the time of opening and will enter the amount of the several tenders in a comparative statement in a suitable form. In the event of a tender being accepted, the contractor shall thereupon, for the purpose of identification, sign copies of the specifications and other documents mentioned in Rule-1. In the event of a tender being rejected, the Divisional Officer shall authorize the Bank concerned to refund the amount of earnest money deposited with the contract for making the tender, on his giving a receipt for the return of the money.

6) The Officer competent to dispose off the tenders shall have the right of rejecting all or any of the tenders.
7) No receipt for any payment alleged to have been made by a contractor in regard to any matter relating to this tender or the contract shall be valid and binding on Government unless it is signed by the Executive Engineer.

8) The memorandum of the work to be tendered for and the schedule of materials to be supplied by the Public Works Department and their rates shall be filled in and completed by the office of the Executive Engineer before the tender form is issued online. If a form issued to an intending tenderer has not been so filled in and completed, he shall request the said officer to have done this before he completes and delivers his tender.

9) All work shall be measured net by standard measure and according to the rules and customs of the Public Works Department without reference to any local custom.

10) Under no circumstances shall any contractor be entitled to claim enhanced rates for any items in this contract.

11) All corrections and additions or pasted slips should be initialed before uploading.

12) The measurement of work will be taken according to the usual method in use in the Public Works Department and no proposal to adopt alternative methods will be accepted. The Executive Engineer's decision as to what is "the usual method in use in the Public Works Department" will be final.
   a) The contractor shall give a list of machinery in their possession and which they propose to use on the work.
   b) The contractor will have to construct shed for storing materials procured by him at his own cost at the work site having double locking arrangement. The materials will be taken to use in the presence of the department person. No materials will be allowed to be removed from the site of the work.

13) The tenders will be liable to be rejected, if while submitting it, the tenderer or in the case of a firm each partner thereof does not sign or the signature/signatures is/are not attested by a witness in the space provided for the purpose.
   a) If Government machinery is available and the contractor desired to have it for work on the project it may be hired to him subject to the rules and hire charges that may be laid down by the Government from time to time during the validity of tender.
   b) No Security deposit will be taken from the Contractor, so long as the machinery is worked by the departmental staff and under the entire control of department and is not handed over to the contractor at all for
operation by his crew and staff and the charges for the use of machinery are levied on hour basis and as per prevailing schedule of rate for hire charges.

c) The machinery should be worked only where the departmental staff is confident to use it safely and never in difficult situation and dangerous spots.

d) The recovery of plant hour charges will be immediately made through the next R.A. Bills.

14) The tendering Contractor shall furnish a declaration along with the tender showing all works for which he has already entered into contract, and the value of the work that remains to be executed in each case on the date of submitting the tender.

15) Every tenderer shall submit along with the tender information regarding the Income Tax circle, or ward of the District in which he is assessed to Income-Tax, the reference to number of the assessment and the assessment year.

16) In view of the difficult position regarding the availability of foreign exchange, no foreign exchange would be released by the Department for the purchase of plant and machinery required for the execution of the work contracted for.

17) The contractor will have to construct shed for storing controlled and valuable materials required for the work. The materials will then be taken for use in the presence of the Departmental person. No materials will be allowed to be removed from the site of works.

18) The tendering contractor should furnish a detailed statement of works in hand showing the costs of works in hand and the works completed against each with certificate from head of the office concerned.

19) In the event of the civil work inclusive of electrical work, the civil contractor must have the registration of Electrical contract of prescribed class as per NIT (class D & above) or civil contractor should have the joint venture with electrical contractor of required class (class D & above) or civil contractor may sublet the Electrical works to electrical contractor of required class (class D & above)

20) Civil contractor will be fully responsible for civil and electrical work.

21) The prescribed time limit is inclusive of time period of electrical works.
22) The electrical works will be executed under supervision of officers of Electrical Division (PWD) as per regular practice.

23) The civil contractor or his authorized Electrical Sub contractor shall furnish Electrical layout of the work within 60 days from the date of Work order which will be approved by the E.E. P. W. Division (Electrical) Amravati within 30 days subject to modification if any as asked by the E.E., P.W. Division (Electrical) Amravati.

23) The measurements of electrical works shall be taken by competent officers of PWD Electrical wing and bills of payment will be paid by Civil wing along with bill of civil work.

24) For refund of security deposit the contractor should obtain the N.O.C. from competent Officer of electrical wing.

25) The main contractor is fully responsible for electrical works i.e. electrification, street electrification, and electric supply with electric meter etc. and for obtaining the permission/ N.O.C. from the competent authority with coordination of local authority and M.S.E.D.C. Ltd. regarding all electrical works.

26) Joint Venture:

26.1) In case of joint venture the copy of registered partnership deed shall be produced at the time of purchasing of tender form and also in Envelope No.1.

26.2) Two or more contractors of any class may combine and tender for a work costing to the amounts up to which each individual contractor or the higher of two limits if they are of different categories are empowered to tender as per the original registration provided.

(i) The combination is of the contractor as a whole and not individual partners and.

(ii) They draw a registered partnership deed and submit a copy thereof to the authority at the time of purchase of the tender forms.

26.3) Whenever the advantage of such combination of two or more contractors is to be taken for quoting for a work, the registered partnership deed should be irrevocable till the completion of work for which they have combined and till all the liabilities there of are liquidated and the share of contractor of higher category should not be less than 50% Further, the percentage share of the contractor of the lower category in such a partnership / combination should not be more than this limit of eligibility to quote for works divided by the estimated cost of work put to tender (i.e. when such a percentage is applied to the cost of...
the work, his share of cost should not exceed his own eligibility limit of tendering for works.)

26.4) Grouping of plant and machineries owned by individual contractors executing joint venture will be considered.

26.5) Earnest money exemption certificate in individual capacity will not be accepted in case of joint venture. Earnest money and additional performance / security deposit in form of TDR/FDR issued in the name of joint venture company drawn by the schedule Bank having branches in Maharashtra and endorsed in the name of Executive Engineer, Special Project (P.W.) Division Yavatmal for a period of one year only be considered.

## CONDITIONS OF CONTRACT

| Security Deposits | Clause 1 :-The person/persons whose tender may be accepted (herein after called the contractor, which expression shall unless excluded by or repugnant to the context include his, heirs, executors, administrators, contractor and assigns) shall (A) within 10 days (which may be extended by the Superintending Engineer concerned, up to 15 days if the Superintending Engineer thinks fit to do so) of the receipt by him of the notification of the acceptance of his tender deposit with the Executive Engineer in cash or Govt. securities endorsed to the Executive Engineer (if deposited for more than 12 months) of sum sufficient which will made up the full security deposit specified in the tender or (B) ( Permit Government at the time of making any payment to him for work done under the contract to deduct such as will amount to four percent of all moneys so payable such deduction to be held by Government by way of security deposit) provided always that in the event of the contractor depositing a lump sum by way of security deposit as contemplated at (A) above, then and in such case, if the sum so deposited shall not amount to Four percent of the total estimated cost of the work, it shall be lawful for Government at the time of making any payment to the contractor for work done under the contract to make up the full amount of two percent by deducting a sufficient sum from every such payment as last aforesaid until the full amount of the security deposit is made up. All compensation or other sum of money payable by the contractor to Government under the terms of his Contract may be deducted from or paid by the sale of sufficient part of his security deposit or from the interest arising there from or from any sums which may be due or may become due by Government to the Contractor under any other contract or transaction of any nature on any account whatsoever, and in the event of his security deposit being reduced by reason of any such deduction or sale as aforesaid, the contractor shall, within ten days thereafter, make good in cash or Government securities endorsed as aforesaid any sum or sums which may have been deducted from or raised by sale of his security deposits or any part thereof. The Security Deposit referred to when paid in cash may, at the cost of depositor, be converted into interest bearing securities provided that the depositor has expressly desired this in writing. |
If the amount of the Security Deposit to be paid in lump sum within the period specified at (A) above is not paid, the Tender/Contract already accepted shall be considered as cancelled and legal step will be taken against the contractor for recovery of the amounts. The amount of the Security Deposit lodged by a contractor shall be refunded alongwith the Payment of the final bill, if the date up to which the contractor has agreed to maintain the work in good order is over. If such date is not over, only **50%** amount of security deposit shall be refunded alongwith the payment of the final bill. The amount of security deposit retained by the Government shall be released after expiry of period up to which the contractor has agreed to maintain the work in good order is over. In the event of the contractor failing or neglecting to complete rectification work within the period up to order, then, subject to provisions of clauses 17 and 20 hereof the amount of Security Deposit retained by Government shall be adjusted towards the excess cost incurred by the department on rectification work *+ This will be the same percentage as that in the tender act (e).

**Compensation of delay.**

**Clause 2 :-** The time allowed for carrying out the work as entered in the tender shall be strictly observed by the contractor and shall be reckoned from the date on which the order to commence work is given to the contractor. The work shall throughout the stipulated period of the contract be proceeded with, all due diligence (time being deemed to be of the contractor) and the contractor shall pay as compensation an amount as the Superintending Engineer (whose decision in writing shall be final) may decide, of the amount of the estimated cost of the whole work as shown by the tender for every day that work remains uncommenced, or unfinished, after the proper dated. And further to ensure good progress during the execution of the works, the contractor shall be bound in all cases, in which the time allowed for any work exceeds one months to complete.

| + 1/5 of work in 1/4 of the time limit |
| + 1/2 of work in 1/2 of the time limit |
| + 3/4 of work in 3/4 of time limit |
| Full work [(9) Nine month] in full time limit |

**+Note :-** The quantity of work to be done within a particular time to be specified above shall be fixed by the officer competent to accept the contracts after taking into consideration the circumstances of each case and inserted in the blank space kept for the
purpose and abide by the programme of detailed progress laid down by the Executive Engineer. The following proportion will usually be found suitable:-

| 1/5, 2/5, 3/4 of total value of the work to be done in 1/4, 1/2, 3/4 of the time | Reasonable progress of earth work |
| 3/10, 4/10, 9/10 of total value of the work to be done. | Reasonable progress of masonry work |

In the event of the contractor failing to comply with these conditions he shall be liable to pay as compensation an amount equal to one percent, or such smaller amounts as the Superintending Engineer (whose decision in writing shall be final) may decide of the said estimated cost of the whole work for every day that the due quantity of work remains incomplete. Provided always that the total amount of compensation to be paid under provision of this clause shall not exceed 10 percent of the estimated cost of the work shown in the tender. Superintending Engineer should be the final authority in this respect irrespective of the fact that the tender is accepted by Chief Engineer, Additional Chief Engineer/Superintending Engineer/Executive Engineer of Assistant Engineer/Sub-Divisional Engineer.

**Action when whole of Security Deposit is forfeited.**

private sale, on account of the contractor at his risk in all respects, and the certificate of the Executive Engineer as to the expenses of any such removal and the amount of the proceeds and expenses of any such sale be final and conclusive against the contractor.

**Extension of time**

Clause 6 :- If the Contractor shall desire an extension of the time for completion of the work on the ground of his having unavoidably hindered its execution or on and the other ground, he shall apply in writing to the Executive Engineer before the expiration of the period stipulated in the tender or before the expiration of 30 days from the date to which he was hindered as aforesaid or on which the cause for asking extension occurred, whichever is earlier and the Executive Engineer may, if in his opinion there are reasonable ground for granting an extension, grant such extension as he thinks necessary or proper. The decision of the Chief Engineer P. W. Region Amravati in this matter shall be final.

Clause 6-A :- In the case of delay in handing over the land required for the work due to unforeseen cause, the contractor shall not be entitled for any compensation whatsoever from the Government on the ground that the machinery or the labour was idle for certain period. Contractor may, however apply for extension of time limit which may be granted on the merit of the case.

**Final Certificate.**

Clause 7 :- On completion of the work the contractor shall be furnished with a certificate by the Executive Engineer (Hereinafter called the Engineer-in-charge ) in such completion but no certificate shall be given nor shall the work be considered to be complete until the contractor shall have removed from the premises on which the work shall have been executed all scaffolding surplus materials and rubbish and shall have cleaned of the dirt from all wood work, doors, windows, floors or other parts of any building, in or upon which the work has been executed, or on which he may have had possession for the purpose of executing the work nor until the work shall have been measured by the Engineer-in-charge or where the measurements have been taken by his subordinates until they have received the approval of the Engineer-in-charge or where the measurements have been taken by his subordinates until they have received the approval of the Engineer-In-Charge, the said measurements being binding and conclusive against the contractor. If the contractor shall fail to comply with the requirements of
this clause as to the removal of scaffolding, surplus material and rubbish, and cleaning off dirt on or before the date fixed for the completion of the work, the Engineer-in-charge may at the expense of the contractor, remove such scaffolding, surplus materials and rubbish, and dispose of the same as he thinks fit and clean off such dirt as aforesaid, and the contractor shall forthwith pay the amount of all expenses so incurred but shall have no claim in respect of any such scaffolding or surplus materials as aforesaid except for any sum actually realized by the sale thereof.

| Payments on intermediate Certificate to be regarded as advances. | Clause 8 :- No payment shall be made for any work estimated to cost less than Rs. One thousand. After the whole of the said work shall have been completed, a certificate of completion shall be given. But in the case of the works estimated to cost more than Rs. One thousand, the contractor shall on submitting a monthly bill therefore, be entitled to receive payment proportionate to the part of the work then approved and passed by the Engineer-in-charge, whose certificate of such approval and passing of the sum payable shall be final and conclusive against the contractor. All such intermediate payment shall be regarded as payments by way of advance against the final payments only and not preclude the Engineer-in-charge from requiring any bad unsound, imperfect or unskillful work to be removed and taken away and reconstructed, or reacted, nor shall any such payment be considered as an admission of the due performance of the contract or any part thereof, in any respect or the occurring of any claim, nor shall it conclude, determine or affect in any way the powers of the Engineer-in-charge as to final settlement and adjustment of the accounts or otherwise, or in any other way vary or affect the contract. The final bill shall be submitted by the contractor within one month of the date fixed for the completion of the work otherwise the Engineer-in-charge’s certificate of the measurement and of the total amount payable for the work shall be final and binding on all parties. |
Clause 9: - The rates for several items of work estimated to cost more than Rs. One Thousand agreed to within, shall be valid only when the item concerned is accepted as having been completed fully in accordance with the sanctioned specifications. In case where the items of work are not accepted as so completed the Engineer-in-charge may make payment on account of such items at such reduced rates as he may consider reasonable in preparation of final or on account bills.

Clause 10: - A bill shall be submitted by the contractor each month on or before the date fixed by the Engineer-in-charge for all work executed in the previous month, and the Engineer-in-charge shall take or cause to be taken the requisite measurement for the purpose of having the same verified and the claim so far as it is admissible shall be adjusted, if possible, within 10 days from the presentation of the bill. If the contractor does not submit the bill within time fixed as aforesaid, the Executive-in-charge may depute a subordinate to measure up the said work. The presence of the contractor or his duly authorized agent whose counter signature to the measurement list shall be sufficient warrant, and the Engineer-in-charge may prepare a bill from such list which shall be binding on the contractor in all respects.

Clause 11: - The Contractor shall submit all bills on the printed forms to be had on application at the office of the Engineer-in-charge. The charges to be made in the bills shall always be entered at the rates specified in the tender or in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender, at the rate hereinafter provided for such work.

Clause 12: - If the specification or estimate of the work provides for the use of any special description of materials to be supplied from the P.W.D. store or if it is required that the contractor shall use certain stores, and the prices to be charged therefore as hereinafter mentioned being so far as practicable for the convenience of the contractor but not so as in any way to control the meaning or effect of this contract specified in the schedule or memorandum (hereto annexed) the contractor shall be supplied with such materials and stores as may be required from time to time to be used by him for the purposes of the contract only, and the
value of the full quantity of materials and stores so supplied shall be set off or reduced from any sums then due, or otherwise, or from the security deposit, or the proceeds of sale thereof, if the deposit is held in Government securities the same or a sufficient portion thereof shall in that case be sold for the purpose. All materials supplied to the contractor shall remain the absolute property of Government and shall on no account be removed from the site of the work and shall at all times be open to inspection by the Engineer-In-Charge. Any such materials unused and is perfectly in good condition at the time of completion or determination of the contract shall be returned to the Public Works Departments store, if the Engineer-In-Charge so requires by a notice in writing given under his hand, but remaining unused by him or for any wastage in or damage thereto.

| Work to be executed in accordance with specifications, drawings, orders etc. | Clause 13 :- The contractor shall execute the whole and every part of the work like manner and both as regards materials and every other respect in strict accordance with specifications. The contractor shall also confirm exactly fully and faithfully to the designs, and drawings and instructions in writing relating to the work signed by the Engineer-in-charge and lodged in his office and to which the contractor shall be entitled to have access for the purpose of inspection at such office or at the site of work during office hours. The contractor will be entitled to receive three sets of contract drawings and working drawings as well as one certified copy of the accepted tender along with the work order free of cost. Further copies of the contract drawings and working drawings if required by him, shall be supplied at the rate of Rs. 1000/- per set of contract drawing and Rs. 1000/- per working drawing except where otherwise specified. |
| Alterations in specifications & designs not to invalidate contract. | Clause 14 :- The Engineer-in-charge shall have power to make any alterations in, or additions to or drawing design and instructions that may the original specifications, appear to him to be necessary or advisable during the progress of the work and the contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given him in writing signed by the Engineer-in-charge and such alterations shall not invalidate the contract, and any additional work which the contractor may be directed to do in the manner above specified as |
| Rate for works not entered in the estimate on schedule of rate of the district. | a part of the work shall be carried out by the contractor in the same conditions in all respects on which he agreed to the main work and at the same rates as per specified in the tender for the main work. And if the additional or altered work, includes any class of work for which no rate is specified in this contract, then such class of work shall be carried out at the rates entered in schedule of rates of the division or at the rate mutually agreed upon rates between the Engineer-in-charge and the contractor which ever are lower. If the additional or altered work for which no rate is entered in the Schedule of rates of the Division, is ordered to be carried out before the rates are agreed upon, then the contractor shall within 7 days of the date of receipt by him of order to carry out work inform the Engineer-in-charge of the rates which if his intention to charge for such class of work, and arrange to carry it out in such manner as he may consider advisable, provided always that if the contractor shall commence work or incur any expenditure in regard thereto before the rate shall have been determined as lastly here in before mentioned then in such case he shall only entitled to be paid in respect if the work carried out or expenditure incurred by him prior to the date of the determination of the rate as aforesaid according to such rate or rates as shall be fixed by the Engineer-in-charge. In the event of a dispute the decision of the Superintending Engineer of the Circle will be final. Where however, the work is to be executed according to the designs, drawings, and specifications recommended by the contractor and accepted by the competent authority the alterations above referred to shall be within the scope of such designs, drawings, and specifications to the tender. The time limit for the completion of work shall be extended in the proportion that the increase in its cost occasioned by alterations or additions bears to the cost of the original contract work, and the certificate of the Engineer-in-charge as to such proportion shall be conclusive. |
| Extension of time in consequence of additions or alterations. | The time limit for the completion of work shall be extended in the proportion that the increase in its cost occasioned by alterations or additions bears to the cost of the original contract work, and the certificate of the Engineer-in-charge as to such proportion shall be conclusive. |
| No claim to any payment or compensation for alteration in or restriction of work | Clause 15 :- (1) If at any time after the execution of the contract documents, the Engineer shall for any reason whatsoever ( other than default on the part of the contractor and for which Government is entitled to rescind the contract ) desire that the whole or any part of the work specified in the tender should be suspended or |
that the whole or part of the work should not be carried out at all he shall give to the contractor a notice in writing of such desire and upon the receipt of such notice the contractor shall forthwith suspend or stop the work wholly or in part as required, after having due regard to the appropriate state at which the work should suspended so as not to cause any damage or injury to the work already done or endanger the safety thereof injury to the work already done or endanger the safety thereof provided that the decision of the Engineer as to the stage at which the work or any part of it could be or could have been safely stopped or suspended shall be final and conclusive against the contractor. The contractor shall have no claim to any payment or compensation whatsoever by reason of or in pursuance of any notice as aforesaid on account of any suspension, stoppage or curtailment except to the extent specified hereinafter.

(2) Where the total suspension of the work ordered as aforesaid continued for a continuous period exceeding 90 days, the contractor shall be at liberty to withdraw from the contractual obligations under the contract so far as it pertains to the unexecuted part of the work by giving a 10 days prior notice in writing to the Engineer, within 30 days of the expiry or expiry of the said period of 90 days, of such intention and requiring the Engineer to record the final measurements of the work already done and to pay the final bill. Upon given such notice, the contractor shall be deemed to have been discharged from his obligation to complete the remaining unexecuted work under this contract on receipt of such notice the Engineer shall proceed to complete the measurement and make such payment as may be finally due to the contractor within a period of 90 days from the receipt of such notice in respect of the work already done by the contractor. Such payment shall not in any manner prejudice the right of the contractor to any further compensation under the remaining provision of this clause.

(3) Where the Engineer requires the contractor to suspend the work for a period in excess of 30 days at any time or 60 days in the aggregate, the contractor shall be entitled to apply to the Engineer within 30 days of the resumption of the work after such suspension for payment of compensation to the extent of pecuniary loss suffered by him in respect of working machinery
rendered idle on the site or on account of his having, have to pay the salary or wages of labour engaged by him during the said period of suspension. Provided always that the contractor shall not be entitled to any claim in respect of any such working machinery, salary or wages for the first 30 days whether consecutive or in the aggregate of such suspension or in respect of any suspension whatsoever occasioned by unsatisfactory work or any other default on his part. The decision of the Engineer in this regard shall be final and conclusive against the contractor.

(4) In the event of

i) Any total stoppage of work on notice from the Engineer under sub-clause (1) in that behalf.

ii) Withdrawal by the contractor from the contractual obligation to complete the remaining unexecuted work under sub-clause (2) on account of continued suspension of work for a period exceeding 90 days.

iii) Curtailment in the quantity of an item or items originally tendered on account of any alteration, omission or substitutions in the specifications, drawings, designs or instructions under clause 14(1) where such curtailment exceeds 25% at the rates for the items specified in the tender is more than Rs. Five thousand/-

It shall be open to the contractor within 90 days from the service of (i) the notice of stoppage of work or (ii) the notice of withdrawal from the contractual obligation under the contract on account of the continued suspension of the work or (iii) notice under clause 14(1) resulting such curtailment or produce to the Engineer Satisfactory documentary evidence that he had purchased or agreed to purchase material for use in the contracted work, before receipt by him of the notice of stoppage, suspension or curtailment and require the government to take over on payment such material at the rates determined by the Engineer. Provided however such rates shall in no case exceed the rates at which the same were acquired by the contractor. The Government shall thereafter take over the material so offered, provided the quantities offered are not in excess of the requirement of the unexecuted work as specified in the accepted tender and are of quality and specification approved by the Engineer.

Contractor to supply plant, ladders, scaffolding etc.

Clause 21: The contractor shall supply at his own cost all materials (except such special materials if any as may be supplied from the Public Works Department Stores in accordance with the contract), plant, tools, appliances, implements, ladders, scaffolding, etc. for the proper execution of the work in the original, altered or substituted form.

The government shall also be entitled to deduct the same from any amount which may be recovered from the contractor as arrears of land revenue and in the event of contractor failing or neglecting to pay such costs, charges and expenses sustained or incurred by the contractor shall forthwith on demand pay to the government the amount of such costs, charges and expenses sustained or incurred by the contractor. Such costs, charges and expenses shall be deemed to be arrears of land revenue and in the event of contractor failing or neglecting to commence the execution of the said rectification work within the period prescribed by the said notice the Executive Engineer get the same executed and carried out departmentally or by any other agency at the risk and account and at the cost of the contractor. The contractor shall forthwith on demand pay to the government the amount of such costs, charges and expenses sustained or incurred by the contractor, and the said certificate of the Executive Engineer shall be final and binding on the contractor.

Therefore in the said notice, the Executive Engineer may get the same executed and carried out departmentally or by any other agency at the risk and account and at the cost of the contractor. The contractor shall forthwith on demand pay to the government the amount of such costs, charges and expenses sustained or incurred by the contractor, and the said certificate of the Executive Engineer shall be final and binding on the contractor.
whether included in the specification or other documents forming part of the contract or referred to in these conditions or not and which may be necessary for the purpose of satisfying or complying with the requirements of the Engineer-in-charge as to any matter on which under these conditions he is entitled to be satisfied, or which he entitled to require together with carriage therefore, to and from the work. The contractor shall also supply without charge the requisite number of persons with the means and materials necessary for the purpose of setting out work, and counting, weighing and assisting in the measurement or examination at any time and from time to time of the work or materials. Failing this the same may be provided by the Engineer-in-charge at the expenses of the contractor and the expenses may be deducted from any money due to the contractor under the contract or from his security deposit or the proceeds of sale thereof or of a sufficient portion thereof. The contractor shall provide all necessary fencing and lights required to protect the Public from accident and shall also be bound to bear the expenses of defense every suit, action or other legal proceedings at law that may be brought by any person for injury sustained owing to the neglect of the above precautions, and to pay damages and cost such person or which may with the consent of the contractor be paid in compromising any claim by any such person.

**Clause 21-A :** The contractor shall provide suitable scaffolds and working platforms, gangways and stairways and shall comply with the following regulations in connection therewith.

a) Suitable scaffolds shall be provided for workman for all work that cannot be safely done from a ladder or by other means.

b) A scaffold shall not be constructed, taken down or substantially altered except.
   - i) Under the supervision of a competent and responsible person, and
   - ii) As far as possible by competent workers possessing adequate experience in this kind of work.

c) All scaffolds and appliance connected therewith and all ladders shall
   - i) be of sound material
   - ii) be of adequate strength having regard

| iii) be maintained in proper condition |

**d)** Scaffolds shall be so constructed that no part thereof can be displaced in consequence of normal use.

**e)** Scaffolds shall not be overloaded and as far as practicable the load shall be evenly distributed.

**f)** Before installing lifting gear on scaffolds special precaution shall be taken to ensure the strength and stability of the scaffolds.

**g)** Scaffolds shall be periodically inspected by a competent person.

**h)** Before allowing a scaffold to be used by his workmen the contractor shall check where the scaffold has been erected by his workmen or not take steps to ensure that it complies fully with the regulations herein specified.

**i)** Working platforms, gangways shall

i) be so constructed that no part thereof can sag unduly or unequally.

ii) be so constructed and maintained having regard to the prevailing conditions as to reduce as far as practicable risks of persons tripping or slipping, and

iii) be kept free from any unnecessary obstructions.

**j)** In the case of working platforms, gangways, working places and stairways at a height exceeding 3 meters. (to be specified).

i) every working platform and every gangways shall have to be closely boarded unless other adequate measures are taken to ensure.

ii) every working platform and gangways, shall have adequate width.

iii) every working platform, gangways, working places, stairway shall be suitably fenced.

**k)** Every opening in the floor of the building or in working platform shall except for the time and to the extent required to allow the access or
persons or the transport or shifting of materials be provided with suitable means to prevent the fall of persons or materials.

l) When persons are employed on a roof where there is danger of falling from a height exceeding 3 meters suitable precaution (to be prescribed) shall be taken to prevent the fall of persons or materials.

m) Suitable precautions shall be taken to prevent persons being struck by articles which might fall from scaffolds or other working place.

n) Safe means of access shall be provided to all working platforms and other working places.

Clause 21 B :- The contractor shall comply with the following regulations as regards the hoisting appliances to be used by him.

(a) Hoisting machines and tackle, including their attachment, anchorages and supports shall
   (i) be of good mechanical construction, sound material and adequate strength and free from patent defect and
   (ii) be kept in good repaired and in good working order

(b) Every rope used in hoisting or lowering material or as a means of suspension shall be of suitable quality and adequate strength and free from patent defect.

(c) Hoisting machines and tackle shall be adequately tested after erected on the site and before and be re-examined in position at intervals to be prescribed by the government.

(d) Every chain, ring hook, shackle, swivel and pulley block used in hoisting or lowering of materials or as a means of suspension shall be periodically examined.

(e) Every crane driver or hoisting appliances operator shall be properly qualified.

(f) No person who is below the age of 21 years shall be in control of any hoisting machine, including any scaffolds, which give signals to the operator.
(g) In the case of every hoisting machine and of every chain, ring, hook, shackle, swivel and pulley block used on hoisting or lowering or as a means of suspension the safe working load shall be ascertained by adequate means.

(h) Every hoisting machine and all gear referred to in the preceding regulation shall be plainly marked with the safe working load. In the case of hoisting machine having available safe working load, each safe working load and the condition under which it is applicable shall be clearly indicated.

(j) No party of any hoisting machine or of any gear referred to in regulation of above shall be loaded beyond the safe working load except for the purpose of testing.

(k) Motors, gearing transmissions, electric wiring and wiring and other dangerous part of hoisting appliances shall be provided with efficient safe guards.

(l) Hoisting appliances shall be provided with such means as will reduce to a minimum risk of the accidental descent of the load.

(m) Adequate precautions shall be taken to reduce to a minimum the risk of any part of a suspended load becoming accidentally displace.

**Measure for prevention of fire.**

**Clause 22**: The contractor shall not set fire to any standing jungle, tree, brush wood or grass without a written permit from the Executive Engineer. When such permit is given and also in all cases when destroying cut or dug up trees, brush wood, grass etc. by fire, the contractor shall take necessary measures to prevent such fire spreading to or otherwise damaging surrounding property. The contractor shall make his own arrangements for drinking water for the labour employed by him.

| Compensation under Workmen’s Compensation Act. | **Clause 37** :- The contractor shall be responsible for and shall pay compensation to his workmen payable under the Workmen’s Compensation Act. 1923 (VIII of 1923), (herein after called the said Act) for injuries caused to the workmen’s. If such Compensation is payable and or paid by Government as principal under the subsection (1) of section 12 of the said Act on behalf of the contractor, this shall be recoverable by Government from the contractor under sub section (2) of the said section. Such compensation shall be recovered in the manner laid down in clause I above.  
**Clause 37-A** :- The contractor shall be responsible for and shall pay expenses of providing Medical aid to any workmen who may suffer a bodily injury as a result of an accident. If such expenses are incurred by Government the same shall be recoverable from the contractor forthwith and be deducted without prejudice to any other remedy of Government from any amount due or that may become due to the contractor  
**Clause 37-B** :- The contractor shall provide all necessary personal safety equipment and first-aid apparatus available for the use of the persons employed on the site and shall maintain the same in  

condition suitable for immediate use at any time and shall comply with the following regulation in connection therewith -

a) The worker shall be required to use the equipment so provided by the contractor and the contractor shall take adequate steps to ensure proper use of the equipment by those concerned.

b) When work is carried on in proximity to any place where there is no risk of drawing, all necessary equipments shall be provided and kept ready for use and all necessary steps shall be taken for the prompt rescue of any person in danger.

c) Adequate provision shall be made for prompt first-aid treatment for all injuries likely to be sustained during the course of the work.

**Clause 37-C :-** The contractor shall duly comply with the provision of ‘The Apprentices Act. 1961 (III of 1961), the rules made there under and the orders that may be issued from time to time under the said Act and the said Rules and on his failure or neglect to do so he shall be subject to all the liabilities and penalties provided by the said Act and said Rules.’

| Claim for quantity of works entered in the tender or estimate. | Clause 38 :- (1) Quantities in respect of the several items shown in the tender are approximate and no revision in the tendered rates shall be permitted in respect of any of the items so long as, subject to any special provision contained in the specification prescribing a different percentage of permissible variation, the quantity of the items does not exceed the tender quantity by more than 25% and so long as the value of the excess quantity beyond this limit, at the rate of the items specified in the tender, is not more than Rs. 5,000/-.  
2) The contractor shall if ordered in writing by the Engineer-in-charge so to do also carry out any quantities in excess of the limit mentioned in Sub-Clause (1) hereof on the same conditions as and in accordance with the specifications in the tender and at the rates (i) derived from the rates entered in the current schedule of rates and in the absence of such rates (ii) at the rate prevailing in market, the said rates being increased or decreased as the case may be, by the percentage which the total tendered amount bears to the estimate cost of the work as put to tender, based upon the Schedule of rates applicable to the year in which the tenders were invited (for the purpose of operation of this clause, this cost shall be taken to be Rs. 2821051/- CSR 2012-13. |
| **Employment of female or other labour.** | **Clause 39**: The contractor shall employ any famine, convict or other labour of a particular kind of class if ordered in writing to do so by the Engineer-in-charge. |
| **Claim for compensation for delay in starting work.** | **Clause 40**: No compensation shall be allowed for any delay caused in the starting of the work on account of acquisition of land and in the case of the clearance work of any delay in according to sanction estimates. |
| **Claim for compensation for delay in the execution of work.** | **Clause 41**: No compensation shall be allowed for any delay in execution of the work on account of water standing in borrow pits or compartments. The rates are inclusive for hard or cracked soil excavation in mud, subsoil water or water standing in borrow pits and no claim for an extra rate shall be entertained, unless otherwise expressly specified. |
| **Minimum age of persons employed, the employment of donkey and/or other animals and the payment of fair wages.** | **Clause 42**: The Contractor shall not enter upon or commence any portion of work except with the written authority and instructions of the Engineer-in-charge or of his subordinate in charge of the work. Failing such authority the contractor shall have no claim to ask for measurements of or payment for work. |
| **3) Claim arising out of reduction in the tendered quantity of any item beyond 25 percent will be governed by the provisions of clause 15 only when the amount of such reduction beyond 25% at the rate of the item specified in the tender is more than Rs. 5,000-00.** | **Clause 43**:  
(i) No contractor shall employ any person who is under the age of 18 years.  
(ii) No contractor shall employ donkeys or Other animals with breeching of string or thin rope. The breeching must be at least 3 inches wide and should be of tape (Newer).  
(iii) No animal suffering from sores; lameness or emaciation or which is immature shall be employed on the work.  
(iv) The Engineer-in-charge or his agent authorized to remove from work any person or animal found working which does not satisfy these conditions and no responsibility shall be accepted by the
Government for any delay caused in the completion of the work by such removal. The contractor shall pay fair and reasonable wages to the workmen employed by him in the contract undertaken by him. In the event of any dispute arising between the contractor and his workmen on the grounds that the wages paid are not fair and reasonable, the dispute shall be referred without delay to the Executive Engineer who shall decide the same. The decision of the Executive Engineer, shall be conclusive and binding on the contractor, but such decision shall not in any way affect the condition in the contract regarding the payment to be made by the Government at the sanctioned tender rates.

The contractor shall provide drinking water facilities to the workers. Similar amenities shall be provided to the workers engaged on large work in urban areas.

**Method of Payment.**

**Clause 44 :-** Payment to contractors shall be made by cheques drawn on any treasury within the Division convenient to them. provided the amount exceed Rs. 10/- Amount not exceeding Rs.10/- will be paid in cash.

**Acceptance of conditions compulsory before tendering the work.**

**Clause 45 :-** Any contractor who does not accept these conditions shall not be allowed to tender for works.

**Employment of scarcity labour.**

**Clause 46 :-** If Government declare a state of scarcity or famine to exist in any village situated within 10 miles of work, the contractor shall employ upon such parts of the work as suitable for unskilled labour any person certified to him by the Executive Engineer or by any person to whom Executive Engineer may have delegated this duty in writing to be in need of relief and shall be bound to pay to such persons wages not below minimum which may arise in connection with the implementation of this clause shall be decided by the Executive Engineer whose decision shall be final and binding on the contractor.
Clause 47 :- The price quoted by the contractor shall not in any case exceed the control price, if any, fixed by Government or reasonable price which is permissible for him to charge as private purchaser for the same class and description of goods under the provisions of Hoarding and profiteering Prevention Ordinance, 1984 as amended from time to time. If the price quoted exceeds the controlled price or the price permissible under Hoarding and Profiteering prevention Ordinance, the contractor will specifically mention this fact in his tender along with reasons for quoting such higher price. The purchaser at his discretion will in such case exercises the right of revising the price at any stage so as to confirm with the controlled price on the permissible under the Hoarding and Profiteering Prevention Ordinance. This discretion will be exercised without prejudice to any other action that may be taken against the contractor.

Clause 48 :- The rates to be quoted by the contractor must be inclusive of sales tax. No extra payment on this account will be made to the contractor.

Clause 48 A :- The contractors are bound to pay to the laborers wages according to the Minimum Wages Act, 1948 applicable to the Zone in Accordance with the order issued in Government PWD/Circular No. MWA/1063, dated 7-12-1968.

Clause 49 :- In case of materials that remain surplus with the contractor for those issued for the work contracted from the date of ascertaining of the materials being surplus be taken as the date of sale for the purpose of sales tax and the sale tax will be recovered on such sale.

Clause 49-A :- Deleted

Clause 50 :- The contractor shall employ at least 80% of total number of unskilled labour to be employed by him on the said work only from locally available labors and shall give preference to those persons enrolled under Maharashtra Government Employment and Self Employment Departments Scheme. Provided, however that if the required unskilled labors are not available locally, the contractor shall in the first instance employ such number of persons as is available and thereafter may with previous permission. In writing of the Executive Engineer-in-charge of the said work, obtain the rest of requirement of unskilled the labour from outside the above scheme.
Clause 51 :- Deleted

Clause 52 :- All amounts whatsoever which the contractor is liable to pay to the Government in connection with the execution of the work including the amount payable in respect of

1. Material and or stores supplied/issued hereunder by the Government to the contractor.

2. Hire charges in respect of heavy plant, machinery and equipment given on hire by the Government to the Contractor, for execution by him of the work and/or on which the advance have been given by the Government to the contractor shall be deemed to be arrears of the land revenue and the Government may without prejudice to any other rights and remedies of the Government recover the same from the contractor as arrears of land revenue.

Clause 53 :- The contractor shall duly comply with all the provisions of the Contract Labour (Regulation and Abolition) Act 1970, (37 of 1970 and the Maharashtra Contract Labour (Regulation and Abolition) Rules, 1971 as amended from time to time and all other relevant statutes and statutory provisions concerning payment of workers employed by him on the site of the work at the rates prescribed under the Maharashtra contract Labour (Regulation and Abolition) Rules 1971. If the contractor fails or neglects to pay wages at the said rates or make short payment and the Government makes such payment of wages in full or part thereof less paid by the contractor, as the case may be the amount so paid by the Government to such workers shall be deemed to be arrears of land revenue and the government shall be entitled to recover the same as such from the contractor or deduct the same from the amount payable by the Government to the contractor hereunder or from any other amounts payable to him by the Government. (Minimum wages act as per Government Circular CAT/1284/(120)/Building Dt. 14/8/1988).

Clause 53-A :- Deleted
Clause 54 :- If during the operative period of the contract as defined in condition (i) below, there shall be any variation in the Consumer Price Index (New Series) for Industrial Workers for Nagpur centre as per the Labour Gazette published by the Commissioner of Labour, Government of Maharashtra and/or in the wholesale Price Index for all commodities, prepared by the office of Economic Adviser, Ministry of Industry, Government of India, or in the price of petrol/oil and lubricants, and major construction materials like bitumen, cement, steel, various types of metal pipes etc., then subject to the other conditions mentioned below, price adjustment on account of

(1) Labour Component.
(2) Material Component.
(3) Petrol, Oil, and Lubricants Component.
(4) Bitumen Component.

Calculated as per the formula hereinafter appearing, shall be made. Apart from these, no other adjustments shall be made to the contract price for any reasons whatsoever. Component percentage as given below are as of the total cost of work put to tender. Total of Labour, Material & POL components shall be 100 and other components shall be as per actual.

<table>

Note :- If cement, Steel, Bitumen, C.I.& D. Pipes are supplied on Schedule “A”, then respective component shall not be considered. Also if particular component is not relevant same shall be deleted.

1. Formula for Labour Component:
\[ V_1 = 0.85 \times P \times \frac{K_1 \times (L - L_o)}{100 \times L_o} \]

Where,
\[ V_1 = \text{Amount of price variation in Rupees to be Allowed for Labour component.} \]
\[ P = \text{Cost of work done during the quarter under consideration} \]
### Minus

the cost of Cement, HYSD and Mild Steel, bitumen, C. I. & D.I. Pipes calculated at the basic star rates as applicable for the tender, consumed during the quarter under consideration.

The Star Rates for the following items shall be as under:

1. **Cement**
   - Rs. 5,600/- per Metric Tonne

2. **Steel HYSD**
   - Rs. 50,000/- per Metric Tonne

3. **Bitumen**
   - Rs. 48,142/- per Metric Tonne

**K1** = Percentage of labour component as indicated above.

**Lo** = Basic consumer/price index for Nagpur Centre shall be average consumer price index for the quarter preceding the month in which the last date prescribed for receipt of tender falls.

**L1** = Average Consumer Price Index for Nagpur Centre for the quarter under consideration.

### 2. Formula for Materials Component:

\[ V_2 = 0.85 \frac{P \times K_2 \times M_1 - M_0}{100 
\]

Where,

- **V2** = Amount of price variation in Rupees to be allowed for Materials component.
- **P** = Same as worked out for labour component.
- **K2** = Percentage of material component as indicated above.
- **Mo** = Basic wholesale price index shall be average wholesale price index for the quarter preceding the month in which the last date prescribed for receipt of tender falls.
- **M1** = Average wholesale price index during the quarter under consideration.
### 3. Formula for Petrol, Oil and Lubricant Component

V3 = 0.85 \( P \times \frac{K3}{100} \times \frac{P1 - Po}{Po} \)

Where,
- V3 = Amount of price variation in Rupees to be allowed for POL component.
- P = Same as work out for labour component.
- K3 = Percentage of Petrol, Oil and Lubricant Component.
- Po = Average price of H.S.D. at Mumbai during the quarter preceding the month in which the last date prescribed for receipt of tender, falls.
- P1 = Average price of H.S.D. at Mumbai during the quarter under consideration.

### 4. Formula for Bitumen Component

V4 = QB (B1 - Bo)

V4 = Amount of price variation in Rupees to be Allowed For Bitumen component.

QB = Quantity of Bitumen VG 30 Grade in metric tones used in the permanent works and approved enabling works during the quarter under consideration.

B1 = Current, average ex-refinery price per metric tonne at Mumbai of Bitumen VG 30 Grade Under consideration including taxes (Octroi, Excise, Sales Tax) during he quarter under consideration.

Bo = Basic rate of Bitumen in rupees per metric tonne as considered for working out value of P or average ex-refinery price in rupees per metric tonne at Mumbai including taxes (Octroi, Excise, Sales Tax) of Bitumen for the grade of bitumen under consideration prevailing quarter preceding the month in which the last date
prescribed for receipt of tender, falls, whichever is higher.

5. **Formula for HYSD and Mild Steel Component**:

\[
V_5 = \frac{S_0 (S_{I1} - S_{O})}{S_{O}} \times T
\]

- \( V_5 \) = Amount of price variation in Rupees to be allowed for HYSD/TMT Steel component.
- \( S_0 \) = Basic rate HYSD/TMT Steel in rupees per metric tonne as considered for working out value of \( P \).
- \( S_{I1} \) = Average Steel Index published in the RBI Bullet in during the quarter under Consideration.
- \( S_{O} \) = Average of Steel Index Published in the RBI Bullet for the quarter preceding the month in which to the last date prescribed for receipt of tender, falls.
- \( T \) = Tonnage of HYSD /TMT Steel used in the permanent works for the quarter under consideration.

6. **Formula for Cement Component**:

\[
V_6 = \frac{C_0 (C_{I1} - C_{O})}{C_{O}} \times T
\]

- \( V_6 \) = Amount of price escalation in Rupees to be allowed for Cement component.
- \( C_0 \) = Basic rate Cement in rupees per metric tonne as considered for working out value of \( P \).
- \( C_{I1} \) = Average Cement Index published in the RBI Bullet in for the quarter under Consideration.
- \( C_{O} \) = Average of Cement Index Published in the RBI Bulletin for the quarter preceding the month in which to the last date prescribed for receipt of tender, falls.
- \( T \) = Tonnage of Cement used in the permanent works for the quarter under consideration.
<table>
<thead>
<tr>
<th>The following conditions shall prevail:</th>
</tr>
</thead>
<tbody>
<tr>
<td>i)  The operative period of the Contract shall mean the period commencing from the date of work order issued to the Contractor and ending on the date on which the time allowed for the completion of the works specified in the Contract for work expires, taking into consideration the extension of time, if any, for completion of the work granted by the Engineer under the relevant clause of the Conditions of Contract in cases other than those where such extension is necessitated on account of default of the Contractor. The decision of the Engineer as regards the operative period of the Contract shall be final and binding on the Contractor. Where any compensation for liquidated damages is levied on the Contractor on account of delay in completion or inadequate progress under the relevant Contract provisions, the price on account of default of the Contractor. The decision of the Engineer as regards the operative period of the Contract shall be final and binding on the Contractor. Where any compensation for liquidated damages is levied on the Contractor on account of delay in completion or inadequate progress under the relevant Contract provisions, the price adjustment amount for the balance work from the date of levy of such compensation shall be worked out by pegging the indices L1, M1, C1, P1, B1, Sl1 and C1 to the levels corresponding to the date from which such compensation is levied.</td>
</tr>
</tbody>
</table>
ii) This price variation clause shall be applicable to all contracts in B-1, B-2 & C forms but shall not apply for piece works. The price variation shall be determined during each quarter as per formula given above in this clause.

iii) The Price Variation under this Clause shall not be payable for the extra items required to be executed during the completion of the work and also on the excess quantities of items payable under the provisions of Clause 38/37 of the contract from B-1/B-2 respectively. Since the rates payable for extra items or the extra quantities under Clause 38/37 are to be fixed as per current DSR or as mutually agreed to yearly revision till completion of such work. In other words, when the completion/execution of extra items as well as extra quantities under Clause 38/37 of the contract from B-1/B-2 extends beyond the operative date of the D.S.R. then rates payable for the same beyond the date shall be revised with reference to the current D.S.R. prevalent at that time on year to year basis or revised in accordance with mutual agreement thereon, as provided for in the Contract, whichever is less.

iv) This clause is operative both ways, i.e. if the price variation as calculated above is on the plus side, payment on account of the price variation shall be allowed to the contractor and if it is on the negative side, the Government shall be entitled to recover the same from the Contractor.
and the amount shall be deductible from the any amounts due and payable under the contract.

v) To the extent that full compensation for any rise or fall in costs to the Contractor is not entirely covered by the provision of this or other clauses in the contract, the unit rate and prices included in the contract shall be deemed to include amounts to cover the contingency of such other actual rise of fall in costs.

**Clause 55 :-**

A) The anti-malaria and other health measures shall be as directed by the Joint Director (Malaria and Filaria) of Health Services, Pune.

B) Contractor shall see that Mosquitogenic conditions are not created so as to keep vector population for minimum level.

C) Contractor shall carry out anti malaria measures in the area as per guidelines prescribed under National Malaria (M & F) of health Services, Pune.

D) In case of a default in carrying out prescribed anti malaria measures resulting in increase in malaria incidence contractor shall be liable to pay to Government the amounts spent by Govt. on anti malaria measures to control the situation in addition on fine.

E) **Relations with Public Authorities** : The contractor shall make sufficient arrangements for draining away the sludge water as well as water coming from the bathing and washing places and shall dispose off this water in such a way as not to cause any substance. He shall also keep the premise clean by employing sufficient number of sweepers. The contractor shall comply with all rules, regulations, bylaws and directions given from time to time by any local or public authority in connection with this work and shall pay fees or charges which are leviable on him without any extra cost of Government. (Vide Govt. Circular No. CST-1086/CR-243/Ka-Bldg-
Clause 56 :- A contractor shall comply with all the provisions of the Apprentices Act, 1961 and the Rules and Orders issued there under from time to time. If he fails to do so, his failure will be a breach of the contract and the Superintending Engineer may, in his discretion, cancel the contract. The contractor shall also be liable for an pecuniary liability arising on account of any violation by him of the provision of the (vide Govt. Circular No. CST - 1086/CR-243 Ka-Building-2/Mantralaya, Bombay-400 032, dated 11 Sept. 1987).

Clause 57 :- The tender rates are inclusive of all taxes, rates, and cesses and are also inclusive of s leviable tax in respect of sale by transfer of property in goods involved in the execution of a work contract under the provision of Rule 58 Maharashtra Value added Tax Act 2005, for the purpose of levy of Tax”

Clause 58 :- In case of materials which become surplus with the contractors from those issued for the work contracted for the date of ascertainment of the materials as being surplus will be taken as the date of sale for the purpose of sales tax and sales tax will be recovered on such sale.

Clause 59 :- Quality Assurance and Maintenance Manual:-

To ensure the specified quality of work which will also include necessary survey temporary works etc. the contractor shall prepare a quality assurance plan and get, the same provided from the Engineer-In-Charge within one month from the date of work order. For this contractor shall submit an organization chart of his technical personnel to be deployed on the work alongwith their qualification, job descriptions defining the
functions of reporting, supervising, inspecting, and approving. The contractor shall also submit a list of tools, equipment, and machinery and instrumentation which he proposes to use for the construction and for testing in the field and/or in the laboratory and monitoring. The contractor shall modify/supplement the organization chart and the list of machinery/equipment etc. as per the direction of the Superintending Engineer and shall deploy the persons and equipment on the fields as per the approved chart and the list respectively. The Contractor shall submit written method statements dealing his exact proposal of execution of the work in accordance with the specification. He will have to get these approved from the Engineer-In-Charge. The quality of the work shall be properly documented through certificate, records, checks list, and Log Book of results etc. such records shall be compiled from the beginning of the work and be continuously updated the supplementary and this will be the responsibility of the contractor. The forms should be got approved from the Executive Engineer-In-Charge.

2) Where the work is to be done on lump-sum basis on contractors designs. The contractor shall also submit a maintenance manual giving procedure. For maintenance, with the periodicity of maintenance works including inspection tools of the equipments to be used means of accessibility for all parts of the structure. He shall also include in the manual, the specification for maintenance works that would be appropriate for his design the technique of construction. This manual shall be submitted within the contract period.

Clause 60: It is obligatory on the part of agency to procure R.C.C. pipe (ISI marked) required for the work from the M.S.S.I.D.C. only. The proof of such procurement like bill of M.S.S.I.D.C. certification of the Divisional Manager M.S.S.I.D.C. to that effect will have to be enclosed along with the bill pertaining to the work concerned. The payment towards the procurement of R.C.C. pipes
and also items, in which the use of R.C.C. pipes is contemplated would be released only after fulfillment of the conditions, laid down as above. **Note**: In case, provision of this form B-1 conflicts with those in detailed cyclostyled provision and condition attached to this tender, the detailed cyclostyled provision and condition would prevail over those in this form.

### GENERAL CONDITIONS OF CONTRACT

1) **Authority of the Engineer-in-charge.**

1.1) So far as it is legally or physically impossible, the contractor shall execute, complete and maintain the works in strict accordance with the contract under the directions and to the entire satisfaction of the Engineer-In-Charge and shall comply with and adhere strictly to the Engineer-In-Charge’s instructions, and directions on any matter (whether mentioned in the contract or not) pertaining to this works.

1.2) The Engineer-In-Charge shall decide all questions which may arise as to quality and acceptability of materials furnished and work executed, manner of execution, rate of progress of the works, interpretation of the plans and specifications and acceptability of fulfillment of the contract on the part of the contractor. He shall determine the amount and quality of the work performed and materials furnished and his decision and measurements shall be final. In all such matters and in any technical questions which may arise touching the contract, his decision shall be binding on the contractor.

1.3) The Engineer-in-charge shall have the power to enforce such decision and orders if the contractor fails to carry them out promptly. If the contractor fails to execute the work ordered by the Engineer-in-charge may give notice to the contractor specifying a reasonable period therein and on the expiry of the period proceed to execute such work as may be deemed necessary and recover the cost thereof from the contractor.

1.4) **Authorities of the Engineer-in-charge’s Representative:**

The duties of the representative of the Engineer-in-charge are to watch and supervise the work and to test and examine the materials to be used for workmanship employed in connection with the works.

1.5) The Engineer-in-charge may from time to time, in writing, delegate to his representative any of the powers and authorities vested in the Engineer-in-charge and shall furnish to the contractor a copy of all such delegations of powers and authorities. Any written instruction of approval given
by the representative of the Engineer-in-charge to the contractor within the terms of such delegations (but not otherwise) shall bind the contractor and the department as through, it had been given by the Engineer-in-charge, provided always as follows:

a) Failure of the representative of the Engineer-in-charge to disapprove any work or materials shall not prejudice the power of the Engineer-in-charge thereafter to disapprove such work or materials and to order to pulling down, removal or breaking up thereof.

b) If the contractor is dis-satisfied with any decision of the representative of the Engineer-in-charge, he shall be entitled to refer the matter to the Engineer-in-charge, who shall there upon confirm, reverse or vary such decision.

2) Other conditions for submission of Tender.

2.1) The Contractor shall be deemed to have carefully examined the work and site conditions including labour, the general and the special conditions, the specifications, schedules and drawings and shall be deemed to have visited the site of the work and to have fully informed himself regarding the lead conditions including tide and water level, wind and current velocity and sub-soil conditions and carried out his own investigation to arrive at the rates quoted in the tender. In this regard he will be given necessary information to the best of knowledge of department but without any guarantee about it.

2.2) It is presumed that the contractor has carefully gone through the works specifications, P.W.D. Handbook, M.O.R.T.& H specifications and the schedule of rates of the division and studied the site conditions before arriving at the rates quoted by him.

3) Treasure trove:

In the event of discovery by the contractor or his employees during the progress of the works of the any treasure, fossils, minerals or any other articles of value or interest, the contractor shall give immediate intimation thereof to the Engineer-in-charge and alongwith make over to the Engineer-in-charge this representative such treasure or things which shall be the property of Government.

3.1) Layout of work:

Layout of the work will be done by the Contractor in consultation with the Executive Engineer, of the Department or his representative. The modern equipments like Theodolite / Total station shall be deployed by the contractor at his own cost as directed by the Engineer-in-charge. Some permanent marks should however be established to indicate the demarcation of the structure or any component there of made to this permanent marks in measurement books and drawing, signed by the contractor and the departmental officer. Responsibility regarding layout will be joint. All vegetation / bushes shall be
cleared from site before start of work, so as to stack the material without hindrance to traffic.

4) **Agent and work order book**:

4.1) The contractor shall himself engage an authorized all time agent on the work capable of managing and guiding the work and understanding the specifications and contract condition. A qualified and experienced Engineer be provided by the contractor as his agent for technical matters in case the Engineer-in-charge consider this as essential for the work and so directs the contractor. Agent will take orders as will be given by the Executive Engineer or his representative and shall be responsible for carrying them out. The agent and/or site Engineer shall not be changed without prior intimation to the Executive Engineer and his representative on the work site. The Engineer-in-charge have the unquestionable right to ask for changes in the quality and strength of Contractors supervisory staff and to order removal from work of any of such staff. The contractor shall comply with such order and effect replacements of the satisfaction of the Engineer-in-charge.

4.2) A work order book shall be maintained on site and it shall be the property of Government and the contractor shall promptly acknowledge the order given therein by the Engineer or his authorized representative or his superior officer, and comply with them. The compliance shall be reported by contractor to the Engineer-in-charge in good time so that it can be checked. The blank work order book, with machine numbered pages in quadruplicate with perforated sheets for three copies to be detached, will be provided by the department for this purpose. Whenever any instructions are written in the work order book the contractor will be supplied with the first carbon copy.

5) **Initial measurement for record**:

Where for proper measurement of the work it is necessary to have an initial set of levels or other measurement taken the same as recorded in the authorized field book or M.B. of Government by the Engineer or his authorized representative will be signed by the contractor who will be entitled to have a true copy of same made at his cost. Any failure on the part of the contractor to get such level etc. recorded before starting the work will tender him liable to accept the decision of the Engineer as to the basis of taking measurements. Likewise the contractor will not cover any work which will render its subsequent measurement difficult or impossible without first getting the same jointly measured by himself and the authorized representatives of the Engineer. The record of such measurements on the Government side will be signed by the contractor and he will be entitled to have a true copy of the same made at his cost.

6) **Custody of work**:

All work and materials before being finally taken over by Government will be the entire liability of the contractor for guarding, maintaining and making good any damages of any magnitude. It is however, to be understood that before taking over such work. Government will not put it to regular use as distinct from casual or incidental use, except as specially mentioned elsewhere in this contract or as mutually agreed to.
7) **Co-ordinations**:

When several agencies for different sub works of the project are to work simultaneously on the project site, the contractor shall render full co-ordination for achieving proper co-ordination between different contractors to ensure timely completion or the whole project smoothly. The scheduled dates for completion specified in each contract shall, therefore, be strictly adhered to. Each contractor may make his independent arrangements for water, power, access, housing etc. but if they so desire he will be at liberty to come to mutual agreement with other contracting agencies in this behalf and make joint agreement with the approval of the Engineer-in-charge. The contractor shall not take or cause to be taken any steps or action that may cause disruption, discontent or disturbance to work, labour or other arrangements etc. of other contractors in the project localities. Any action by the Contractors which the Engineer-in-charge in his unquestioned discretion, may consider infringement of the above would be considered as a breach of the contract conditions and shall be dealt with as such.

In case of any dispute or disagreement between the various contractors, the Engineer-in-charge’s decisions regarding the coordination, co-operation and facilities to be provided by any of the contractor shall be final and binding on the contractor concerned & such a decision or decisions shall not vitiate contract nor absolve the contractor of his obligations under the contract, nor form the grounds for any claim or compensation.

8) **Patented Devices, Materials and Process** :

Whenever the contractor desires to use any designed device, material or process covered by letter of patent copyright, the right for such use shall be secured by suitable legal arrangement and agreement with patent owners and the copy of their agreement shall be filed with Engineer-in-charge.

9) **Relation with Public Authorities** :-

The contractor shall comply with all rules, regulations, by law and directions, given from time-to-time by any local or public authority or body in connection with this work and shall he pay fees or charges which are livable on him with out any extra cost to Government.

10) **Indemnity** :

The contractor shall indemnify the Government against all action, suits, claims and demands brought or made against it in respect of anything done or committed to done by the contractor in execution of or in connection with the work of this contract any against any loss or damage to the Government in consequences of anything done or committed to be done in the execution of the work of this contract. The Government may, at its discretion and entirely at
the cost of contractor, defend such suit either jointly with the contractor or
singly, in case the letter chooses not to defend the case.

11) Stacking, Storage and guarding of materials:

11.1) The stacking and storage of materials at site shall be in such a manner as
to prevent determination or intrusion of foreign matter and to ensure the
preservation of their quality, properties and fitness for the work. Suitable
precautions shall be taken by the contractor to protect against atmospheric
actions, fire and other hazard. The materials likely to be carried away by wind
shall be stored in suitable stores or with suitable barricades and where there is
likelihood of subsidence of soil, heavy materials shall be stored on paved
platforms. Suitable separating barricades and enclosures as directed shall be
provided to separate materials brought by contractor and obtained from
different sources of supply.

11.2) The contractor shall at his own expenses, engage watchmen for
guarding the materials and plant and machinery and the work during day and
night against any pilferage or damage and also for prohibiting trespassers.

11.3) No materials brought to the site shall be removed from the site without
the prior approval of the Engineer-in-charge.

12) Inspection of work by Engineer-in-charge.

12.1) The contractor shall inform the Engineer-in-charge in writing when any
portion of the work is ready for inspection giving him sufficient notice to
enable him to inspect the same without affection the further progress of the
work.

12.2) The contractor shall provide at his cost necessary ladders and such
arrangements as are considered safe by the Engineer-in-charge for proper
inspection of all parts of the work by the local representatives, M.L.A’s and
officers etc. No compensation shall be paid to the contractor on this account.

13) Precaution to be taken by contractor:

13.1) The work shall be carried out by the contractor without causing
damage to the existing Government property and/or private property. If any
such damage are caused, the contractor shall pay for restoration of the
property to the original conditions, and any other consequent damages.

13.2) In the event of an occurrence of an accident, involving serious injury or
death of any person, at site of work or quarry or at any place in connection
with the work the same shall be reported in writing within twenty four hours of the occurrence to the Engineer-in-charge and the Commissioner of Workmen’s compensation.

14) **Clearance of site on completion of works:**

   The contractor after completion of work shall clean the site of all debris and remove all unused materials other than those supplied by the department and all plant and machinery, equipments, tools etc., belonging to him within one month from the date of completion of the work, or otherwise the same will be removed by the department at his cost or disposed off as per departmental procedure. In case the material is disposed off by department, the sale proceeds will be credited to the `contractor’s account after deducting the cost of sale incurred. However, no claim of contractor regarding the price of amount credited will be entertained afterwards. In case of road work the vegetation on road formation and slopes shall be cleared at the time of completion by contractor at his own cost.

15) **Removal of Constructional plant with prior permission:**

   All constructional plant, provided by the contractor shall when brought on the site be deemed to be exclusively intended for the construction and the contractor shall not remove the same or any part thereof (Save of the purpose of moving it from one part of the site to another) without the consent in writing of the Engineer-in-charge who shall record the reasons for withholding the consent.

16) **Restrictions because of local traffic:**

   As there is Local traffic by the side of construction, the contractor will have to take proper precautions such as proper barricading, fencing, lighting, information and cautionary boards for safe and smooth flow of traffic, and keeping the concerned authorities informed about the work in progress.

17) **Completion Certificate:**

17.1) The work shall not be considered to have been completed in accordance with the terms of the contract until the Engineer-in-charge shall have certified in writing to that effect. No approval of material or workmanship or approval of part of work during the progress of execution shall bind the Engineer-in-charge or in any way prevent him from even rejecting the work which is claimed to be completed and to suspend the issue of his certificate of completion until such alteration and modification or reconstruction have been effected at the cost of the contractor as shall enable him to certify that the work has been completed to his satisfaction.

17.2) After the work is completed the contractor shall give notice of such completion to the Engineer-in-charge and within 30 days of receipt of
such a notice the Engineer-in-charge shall inspect the work and if there is no defect in the work, shall furnish the contractor with a certificate indicating the date of completion. However, if there are any defects which in the opinion of the Engineer-in-charge are rectifiable he shall inform the contractor the defects noticed. The contractor after rectification of such defects shall then inform the Engineer-in-charge and Engineer-in charge on his part shall inspect the work and issue the necessary completion certificate within 30 days if the defects are rectified to his satisfaction, and if not, he shall inform the contractor indicating defects yet to be rectified. The time cycle as above, shall continue.

17.3) In case defects noticed by the Engineer-in-charge which in his opinion are not rectifiable but otherwise work is acceptable at reduced payment, work shall be treated as completed. In such cases completion certificate shall be issued by the Engineer-in-charge within 30 days indicating the un-rectifiable defects for which specified reduction in payment is being made by him.

17.4) The issue of completion certificate shall not be linked up with the site clearance after completion of work.

17.5) Should the part of construction is put to use at any stage prior to date of issue of completion certificate, the maintenance period of that part of the work shall be reckoned from the date of actual use of the facility.

18) Ancillary Works:

The contractor shall submit to Engineer-in-charge in writing the details of all ancillary works including layout and specifications to be followed for its construction. Ancillary work shall not be taken up in hand unless approved by Engineer-in-charge. The Engineer-in-charge reserves the right to suggest modifications or make complete changes in the layout and specifications proposed by the contractor at any stage to ensure the safety on the work site. The contractor shall carry out all such modification to the ancillary works at his own expenses as ordered by Engineer-in-charge.

19) Temporary Quarter:-

The contractor shall at his own expense make his own arrangement for housing his staff with all necessary amenities. General layout plan for such structures shall be got approved from the Engineer-in-charge. It will be the responsibility of the contractor to get his layout plan of temporary structure approved from the local competent authorities.

20) Safety measures and Amenities:

Safety Measures

The contractor shall take all necessary precautions for the safety of the workers and preserving their health while working on such jobs as required
special protection and precaution where ever required. The contractor shall also comply with the directions issued by the Engineer-in-charge in this behalf from time to time at all times.

The following are some of the requirement

i) Providing protective footwear to workers in situations like mixing and placing of mortar or concrete, in quarries and place where the work is to be done under too much wet conditions as also for, movements over surfaces infested with oyster growth.

ii) Providing protective hardware to working in quarries etc. to protect them against accidental fall of materials from above.

iii) Providing handrails at the edge of the floating platforms, barges walkways, ladder etc.

iv) Providing workmen with safety belts, ropes etc. when working on any masts cranes, cribs, hoists, dredgers etc.

v) Taking necessary steps towards training the workers concerned on the use of machinery before they are allowed to handle it independently and taking all necessary precautions in and around the areas where machines, hoists and similar units are working. Wherever required, the persons handling the machinery shall have requisite licenses, certificate etc.

vi) Preventing over loading and over-crowding of floating and land based machinery and equipment.

vii) Providing life belts to all men working at such situations from where they may accidentally fall into water or on the ground, . Equipping the boats with adequate numbers of life buoys etc.

viii) Avoiding bare live wires etc. as would cause electrocutions.

ix) Making platforms, staging and temporary structures sufficiently strong and not causing the workmen and supervisory staff to work under risks.

x) Providing sufficient first-aid trained staff and equipment to be available quickly at the worksite to render immediate first-aid treatment in case of accident due to suffocation, drowning and other injuries.

xi) Taking the all necessary precautions wherever drivers are engaged on the work.

xii) Providing full length gum boots, leather hand gloves, leather jackets with fireproof aprons to cover the chest and back reaching up to knees plain goggles for the eyes to the labour working with hot asphalt handling, vibrators in cement concrete and also where use of any or all
these items is, essential in the interest of health and well-being of the labourers in the opinion of the Engineer-in-charge.

21) **Medical and Sanitary Arrangements to be provided for labour employed in the construction by the Contractor:**

a) The Contractor shall provide an adequate supply of potable water for the use of labourers on works and in camps.

b) The Contractor shall construct trenches or semi permanent latrines for the use of labourers. Separate latrine shall be provided for men and women.

c) The Contractor shall build sufficient number of huts on suitable plot of land for use of the labourers according to the following specifications.

(1) Huts of Bamboos and Grass may be constructed.

(2) There should be no over-crowding. The floor space at the rate of 3 sqm. (30 Sq.ft.) per head shall be provided. Care should be taken to see that the huts are kept clean and in good order.

(3) The contractor must find his own land. If he wants Government land he should apply for it. Assessment for it, if demanded will be payable by contractor. However the department does not bind itself for making available the required land.

(4) A good site not liable to submergence shall be selected. High ground remote from jungle but well provided with trees, shall be chosen wherever it is available. The neighborhood of tank, jungles, grass or weeds should be particularly avoided. Camps should not be established close to large cutting of earth work.

(5) The lines of huts shall have open space of at least 10 meters between rows. When a good natural site can not be procured particular attention should be given to the drainage.

d) The contractor shall construct sufficient number of bathing places. Sufficient number of washing places should also be provided for the purpose of washing cloths.

e) The contractor shall make sufficient arrangements for draining away the surface and salvage water as well as water from the bathing and washing places and shall dispose off this waste water in such a way as not to cause any nuisance.

f) The contractor shall engage a medical officer with a traveling dispensary for a camp containing 500 or more persons if there is no Govt. or other private
dispensary situated within 8 kilometers from the camp. In case of an emergency, the contractor shall arrange at his cost free transport for quick medical help to his sick workers.

**g)** The contractor shall provide the necessary staff for affecting the satisfactory conservancy and cleanliness of the camp to the satisfaction of the Engineer-in-charge. At least one sweeper per 200 persons should be engaged.

**h)** The Assistant Director of Public Health shall be consulted before opening a labour camp and his instructions on matters such as water supply, sanitary convenience, the camp site, accommodation and food supply shall be followed by the contractor.

**i)** In addition to above all provisions of the relevant labour act pertaining to basic amenities to be provided to the laborer shall be applicable which will be arranged by the contractor.

**j)** The contractor shall make arrangement for anti-malaria measure to be provided for labour employed on the work. The anti-malaria measures shall be as directed by Assistant Director of Public Health Officer.

**22)** The contractor except as provided in special conditions which follow shall, if necessary construct at his cost, temporary roads and maintain these in proper conditions till completion of the work, at his own cost.

**23)** The contractor except as provided in special conditions which follow shall have to at his own expenses make all preliminary arrangements for labour, water, electricity, and materials etc., immediately after getting the work order. The Government may render necessary assistance in this regard by way of letters of recommendation, if so requested by the contractor. No claim for any extra payment or application for extension of time on the grounds of any difficulty in connection with the above matters will be entertained.

**24)** **Working methods and progress schedules**:

24.1) The Contractor shall submit within the time stipulated by the Engineer in writing the details of actual methods that would be adopted by the contractor for the execution, of any items as required by Engineer at each of the location, supported by necessary detailed drawing and sketches including those of the plant and machinery that would be used their locations arrangement for conveying and handling materials etc. and obtain prior
approval of the Engineer-in-charge who reserves the right to suggest modifications or make corrections in the method proposed by the contractor whether accepted previously or not at any stage of the work, to obtain the desired accuracy, quality, safety and progress of work which shall be binding on the contractor. No claim on account of such change in method of execution will be entertained by Government so long as specification of the item remains unaltered.

24.2) The Contractor shall furnish within one month of the order to start the work programme of work in quadruplicate indicating the date of actual start, the monthly progress expected to be achieved and the anticipated completion date of each major item of work to be done by him, also indicating date of procurement of materials and setting up of plants and machinery. The programme is to be such as to be practicable of achievement towards the completion of the whole work in the time limit and of the particular items, if any on the due dates specified in the contract. Planning and programme of works shall be done by the mutual discussion between the Engineer –in-charge and contractor's representative in charge of work. The progress of work shall be reviewed every six months and revised programme shall be drawn up, if necessary. No revised programme shall be operative without the approval of Engineer-in-charge in writing. The Engineer is further empowered to ask for more detailed schedule or schedules say weekly, for any item or items in case of urgency of work as will be directed by him and the contractor shall supply the same and when asked for. Acceptance of the programme or the revised programme, by the Engineer-in-charge shall not relieve the contractor of his responsibility to complete the whole of the work by the prescribed time or the extended time if any.

24.3) The Contractor shall furnish sufficient plant, equipment and labour as may be necessary to maintain the progress schedule. The working and shift hours restricted to one shift a day for operations to be done under the Government supervision shall be such as may be approved by the Engineer-in-charge. They shall not be varied without prior approval of the Engineer. Night work which requiring supervision shall not be permitted except when specifically allowed by Engineer-in-charge if requested by contractor. The contractor shall provide necessary lighting arrangement etc. for night work as directed by Engineer without extra cost of Government.

24.4) The contractor shall submit report on progress of work in forms and statement etc. as periodical intervals in the form of progress charts, forms, statements and/or reports as may be approved by the Engineer. Forms for sending reports about progress will be supplied by the Executive Engineer.

24.5) The contractor shall maintain proforma, chart, details regarding machinery equipment, labour, material, periodical returns thereof in proforma to be approved from the Engineer-in-charge.

25) Payment:
The Tenderer must understand clearly that the rates quoted are for completed work and include all cost due to labour, all leads and lifts involved and if further necessitated scaffolding plants, supervision, service works, power etc. and to include all to cover the cost of night and round the clock work as and when required and no claim for additional payment beyond the prices or rates quoted will be entertained and the tenderers will not be entitled subsequently to make any claim on the ground of any representation or on any promise by and person (whether tender in the employment of any Public Works Deptt. or not) or on the ground of any failure on his part to obtain all necessary information for the purpose of making his tender and fixing the several prices and rates therein relieve him from any risks or liabilities arising out of or consequence upon the submission of the tender.

Payment to the contractors will be made by cheque/RTGS drawn on any treasury within the Division, provided the amount to be paid exceeds Rs. 300/- Smaller amount will be paid in cash.

26) Claims of extra work

26.1) Claims for extra work shall be registered within 30 days of occurrence of the event. However, bills for these claims alongwith supporting data details may be submitted subsequently.

26.2) Bills for extra work or for any claim shall be paid separately apart from the interim bills for the main work. The payment of bills for the main work shall not be withheld for want of decision on the extra/claims not covered in the schedule of items for extra work.

27) Bill and Payments:

27.1) Two running payments in a month are permitted. First of the bill shall be submitted by the contractor by the 10th day of the month and Second bill, if necessary, shall be submitted by the contractor by the 25th day of the month.

27.2) The format of running bill on which the bills are to be submitted by the contractor shall be supplied to the contractor by the Department Printed copies of the bills forms as per this format shall be arranged by the contractor at his cost. The bills in five copies shall be submitted to the concerned Engineer's representative in the standard proforma only.

27.3) The final bill shall be submitted by the contractor within one month of the date of issue of completion certificate. The final bill shall be paid within six months of initial submission.

27.4) Recovery of secured advances shall be affected through bills proportionately as per consumption of materials in the work billed for.

27.5) The contractor can have true copy of the bills paid to him after paying charges for photo copying the same.

27.6) Controlled concrete:

Acceptance criteria shall be as per IS: 456 – 2000
27.7) **Ordinary concrete** :

Acceptance criteria shall be as per IS: 456 – 2000

28) **Assistance in procuring priorities, permits etc.** :

28.1) The Engineer-in-charge on written request by the contractor, will if in his opinion the request is reasonable and in the interest of work and its progress, assist the contractor in securing the police protection and the priorities for deliveries, transport, permits, for controlled materials permits for quarries and other similar permits including labour licence etc. where such are needed. All cost in this behalf shall be borne by the contractor. The department will not, however, be responsible for the non-availability of such facilities or delays in the behalf and no claims on account of such failure or delays shall be allowed by the department.

28.2) The contractor will have to make his own arrangement for machinery required for the work. However, if such machinery is conveniently available with the department it may be spared on hire as per department’s rules in force if requested by the contractor in writing. For such arrangement a separate agreement in the prescribed form will have to be signed by the contractor. Such an agreement shall be independent of this contract and the supply or non-supply of machinery shall not form a ground for any claim or extension of time limit for this work.

29) **Water supply** :

29.1) Availability of adequate water for work and sources thereof shall be confirmed by the contractor before submitting the tender.

29.2) The Contractor shall make his own arrangements at his own cost for entering into contract with concerned authorities for obtaining the connection and carry the water up to the work site as required by him. The location of the pipe line with respect to the road shall be decided by Engineer-in-charge and shall be binding on the contractor. The department shall not bear any responsibility in respect of any problem and contractor shall not be liable for getting any compensation on any ground. The progress of work shall not hamper for the above reasons.

29.3) The contractor is advised to provide water storage tanks of adequate capacity to take care of possible shut down of water supply system.

29.4) The contractor shall have to supply water required by the department for its establishment at work site free of cost.

30) **Electricity** :

30.1) The contractor will have to make his own arrangement at his own cost for obtaining or providing electric supply at work site. The Department shall not bear any responsibility in respect of any problem and contractor shall not be liable for getting any compensation on any ground. The progress of work shall not hamper for the above reasons.
30.2) Electrical supply for the Departments use at work site shall be provided by the contractor at mutually agreed terms. The contractor may not abide by these conditions when power supply at the site fails.

31) **Telephone facilities:**

to make his own arrangement at his own cost for telephone connection at work site, if Contractor will have required.

32) **Material Sources:**

32.1) The tenderers shall make their own independent investigations into the availability as well as suitability of the various materials required for construction as referred to in this para.

32.2) If any quarry is in the possession of the department the contractor will be allowed to use the same on usual conditions. In other cases, the contractor will have to make his own arrangement for procuring quarries or the quarry permits, necessary assistance of which will be given by the department.

32.3) Lime stone shall not be permitted for any concrete work.

33) **Land:**

3.1) The contractor shall make all efforts to obtain land required for the ancillary works. In case the contractor is unable to obtain land and if requested then the department may requisite land at his cost.

33.2) Land as available with the department or requisitioned by the department at the request of the contractor will be handed over to the contractor for such use as will be necessary for ancillary work required on payment of rent to the department. Plot development, if any, will have to be done by the contractor at his own cost. The development shall be in conformity with the regulations of the local authority.

33.3) If for the purpose of construction it becomes necessary of the contractor to occupy land not in possession of the department the contractor will have to make his own arrangement with the land owners and pay such compensations as mutually agreed between them.

33.4) On completion of work, all land mentioned in para 34.1., 34.2, 34.3 shall be handed over back to the owners, or the department, as the case may be, after clearing the land as directed by the Engineer-in-charge. Dismantling of building on Government or department land shall be done only after the approval of the Engineer-in-charge.

34) **Floods or Accidents :**

The contractor shall take all precautions against damages by floods or from accidents etc. No compensation will be allowed to the contractor on this account or for correction and repairing any such damages to the work during construction.

Contractor No of correction Executive Engineer
The contractor shall be liable to make good at his cost any plant or materials belonging to the Government lost or damaged by floods or from any other causes while in his charge.

35) **Urgent Works:** If any “Urgent Works” become necessary and contractor is unable or unwilling to carry it out at once, the Engineer-in-charge may by his own or through other people have it carried out as he may consider necessary. If the "Urgent Work" shall be such as in the opinion of the Engineer-in-charge the contractor is liable under the contract to carry out at his expenses, all expenses incurred on it by the department shall be recoverable from the contractor, and be adjusted or set off against any sum payable to him.

36) **Cement Concrete Work.**

Theoretical consumption of Cement for the Concrete work

Note: The weight per bag of cement is considered as 50 Kg.

The rate of consumption of cement for various grades of concrete referred above is a theoretical rate of consumption assumed for the estimate purpose. The contractor will have to obtain an economic mix design for various grades of concrete and get it approved from the Engineer-in-charge. The specification for controlled cement concrete shall be as per standard specification No. B-7 Page 38, and IS 456-2000.

The minimum cement content for plain and reinforced concrete for various grade of concrete shall be as specified in IS 456-2000. The minimum cement content for plain and reinforced concrete for various grades of concrete shall be as specified in IS 456-2000.

Immediately upon the receipt of the award of the contract, the contractor shall inform the Engineer the exact location of the sources of the acceptable material. The concrete mix to be used shall be got designed in all Govt. laboratory, by the contractor with a optimum quantity of cement to give the specified strength in the preliminary tests and the proportion got approved by the engineer in writing. These proportions shall be used so long as the materials continue to be of the same quality and from the same sources subject only to slight changes in the relative quantities of fine and course aggregate for the purpose of promoting workability provided the work tests and shows the required strength.

If such preliminary tests involve change in cement consumption up to 2% on the higher or lower side, no adjustment in the cost of the item to be
paid to the contractor shall be made. If such alterations, changes, theoretical consumption of cement by more than 2% on the higher or lower side, the sources and quality of aggregate remaining the same, payment will be adjusted for or against the contractor in whatever amount the total cost of cement to the contractor has been increased or decreased by more than 2%. The amount of such increase or decrease shall be calculated on the basis of quantity of cement determined and prescribed in the special provisions. In adjusting the cost only the cost of cement shall be considered and not handling or other charges, which shall be treated as incidental to the terms. If during the progress of work the contractor wishes to change the material, the proportions shall be fixed on the basis of fresh preliminary tests to give the required strength after the Engineer is satisfied that the material satisfy the specifications. No adjustment of the cost shall be made for a change of proportions of cement fixed in the original preliminary tests.

37) **Contractor to inform himself fully:**

The Contractor shall be deemed to have carefully examined the work and site conditions including labour, the general and the special conditions, the specifications, schedules and drawings and shall be deemed to have visited the site of the work and to have fully informed himself regarding the local conditions including water levels, winds, current velocities and sub-soil condition and carried out his own investigation to arrive at the rates quoted in the tender. In this regard he will be given necessary information to the best of knowledge of department but without any guarantee about it. If he shall have any doubts as to the meaning of any portion of these general conditions, or the special conditions to the scope of working of the specifications and drawing, or any other matter concerning the contact, he shall in good time before submitting his tender set forth the particulars there of and submit them to the Engineer in writing in order that such doubt may be clarified authoritatively before tendering. Once a tender is submitted the matter will be decided in accordance to the tender conditions in absence of such authentic clarification.

38) **Errors, Omissions And Discrepancies :**

a) In case of errors, omissions and/or disagreement between written and scaled dimensions in the drawing or between the drawings and specifications etc. the following order of preference shall apply:

i) Between actual scaled and written dimensions or description or description on a drawing the latter shall be adopted.

ii) Between the written or shown description or dimensions in the drawing the corresponding one in the specifications, the latter, shall apply.

iii) Between the quantities shown in the schedule of quantities and those arrived at from the drawing the latter shall be preferred.
b) In all cases of omissions and/or doubts or discrepancies in the dimension or description of any item or specifications a reference shall be made to the Engineer, whose elucidation, elaboration or decision shall be considered as authentic. The contractor shall be held responsible for any errors that may occur in the work through lack of such reference and precautions.

c) The contractor should not sublet any part of work without written permission of the Engineer-in-charge.

39) Samples and Testing of Materials:

i) All materials to be used on work such as cement, lime, brick, aggregates, steel, stone, asphalt, wood, tiles etc. shall be got approved in advance from the Engineer-in-charge and shall pass the tests and analysis required by him which will be (a) as per specifications of the items concerned and or (b) as specified by the Indian Road Congress standard specification and code of practice for road and bridges or (c) I.S.I. specification whichever and wherever applicable (d) as per specification Ministry of Surface Transport for Roads and bridges section 900 quality control for road work or (e) such recognized specification acceptable to the Engineer-in-charge as equivalent there to or in the absence of such authorized specification (f) such representative in the order of precedence given above.

ii) The contractor shall at his risk and cost make all arrangements and/or shall provide for all such facilities as the Engineer-in-charge may require for collecting, preparing and forward required number of samples for tests or for analysis to the nearest approved laboratory and bear all charges and cost of testing. Such samples shall also be deposited with the Engineer-in-charge till sent for testing.

iii) The contractor shall, if and when required, submits at his cost the samples of materials to be tested or analyzed and if so directed, shall not make use or incorporate in the works any materials to be represented by the sample until the required test or analysis have been made and after this test results of the materials finally accepted by the Engineer-in-charge.

iv) Frequency of testing of the construction material and the percentage of testing from the Government laboratory shall be as under.

a) Where the field laboratory certified by the concerned Executive Engineer is established for the work at work site 70% tests as per total frequency required shall be carried out in the said field laboratory & 30% tests shall be carried out at the Vigilance & Quality Control Laboratory for the materials mentioned in Annexure-I on page 147 to 149 here under for the material not covered in Annexure-I, 50% tests shall be carried out in the field laboratory and remaining 50% tests need to be carried out in the Vigilance & Quality Control Laboratory of P.W.D. Govt. of Maharashtra. The entire responsibility of the
sample testing as per required frequency including testing charges will be borne by the Contractor.
b) Where field laboratory is not established at works site 100% tests as per frequency shall be carried out in the Vigilance & Quality Control Laboratory.
c) Testing of cement and steel 100% in V.Q.C.C. Laboratory at Amravati is compulsory.
d) It is mandatory to submit the test report of materials used for the work as per the frequency along with the bill. If the test results are not submitted along with the bill, an amount equal to five times the testing charges shall be deducted from the bill.

V For providing Electric wiring duct tubes of the required diameters and length shall be provided through walls, beams and floors, slab as when diverted without any extra cost.

Vij a) The contractor will make his own arrangement for receiving all materials, tools, etc. required for the work.
b) No extra charge for the carriages of work be allowed.
c) The rates for all items are inclusive of all charges such as carting, lifting, etc. No extra payment for any lead and lift will be paid for any item.
d) The contractor should not be sublet any part of work without written permission of the Engineer-in-charge.
e) The condition in the tender notice will be binding on the contractor and tender notice will form a part of agreement.
f) Frequency of testing shall be as per relevant specifications. In case such frequency is not specified in work specifications then the I.S. Code will be referred and for other cases where I.S. Code do not stipulate the frequency of testing it will as directed by Engineer-in-charge.

40) Weigh Batching:
The following instructions shall be followed as regards to preliminary designs of mix and methods of batching of plain cement concrete and reinforced cement concrete. The preliminary mix design and batching for various grades of concrete shall be governed by the following guidelines as per IS 456-2000/ Mix Design- It will be the responsibility of the contractor to obtain the mix design for various cement concrete grades at his cost from the recognized institution.

41) Miscellaneous:

41.1) Competency of Tender:– The work will be awarded only to those contractors who are considered to be responsible bidders, capable of performing the class of work to be completed. Before passing the final award any or all bidders may have to show that he has the necessary experience, facilities, ability, and financial resources to execute the work in satisfactory manner and also within
the stipulated time. The bidders may also be required to furnish to the Department a statement in respect of their experience and final resources.

41.2) **Eraser**: Person tendering are informed that no erasers or any alterations by them in the text of the documents set herewith will be allowed and any such eraser on an alteration will be disregarded, if there is any error in writing no overwriting should be done but the wrong words or figures should be struck out and the correct one written above or near it in an unambiguous way. Such corrections should be initiated and dated.

41.3) **Acceptance**: Intimation of acceptance of tender will be given by a telegram or a letter sent by registered post to the address given below the signature of the tenderer in the tenders. The tenders which do not fulfill any of the conditions for those in the form and which are incomplete in any respect shall be liable for rejection.

41.4) **Precautions to be taken by the contractor to prevent accident.**
   i) No live electric lines should be allowed to run along the ground in the blasting zone and they should be at least 3 meter above ground if not more.
   ii) The wiring cable should be taken near the live electric line and it should be preferably short firing cable as supplied by the supplier of explosives. If such cable is not available a substitute cable made up of several pieces properly jointed and tapped be used.
   iii) The blasting shed from where the exploder is to finally operated should be at least 500 Ft. away from the area to be blasted. It should have a strong roof which can withstand the impact of flying stones at his range.
   iv) Only trained hands should be allowed to handle explosives, cable detonators etc.

41.5) **Police Protection**: For the special protection of the camp of the contractors work, the Deptt. will help the contractors as far as possible to arrange for such protection with the concerned authorities. The cost shall be borne by the contractor.

41.6) For providing electric wiring or water line etc. recesses shall be provided if necessary through walls, slabs beams etc. and later on refilled it with bricks or stones, chippings cement mortar without any extra cost.

41.7) In case it becomes necessary for the due fulfillment of contract for the contractor to occupy land outside the Department limits the contractor will have to make his own arrangements with the landowners and pay such rents, if any, which are payable as mutually as agreed between them.

41.8) The contractor shall duly comply with the provisions of the Apprentices Act, 1961 (iii) of 1960 and the rules and orders made there under from time to time under the said Act and the said Rules and on his failure or neglect to do so he shall be subject to all the liabilities and penalties provided by the said Act and said Rules.

41.9) It is presumed that the contractor has gone carefully through the standard specification (vol. I & II 1981 edition) of Govt. of Maharashtra P.W.D
condition/MORT & H specifications of latest edition and the schedule of rate of
the Division, and studied of site conditions before arriving at rates quoted by
him. The special provisions and detailed specification of wording of any item
shall gain precedence over the corresponding contract. Decision of Engineer-
in-charge shall be final in case of interpretation of specification.

41.10) If the standard specifications fall short for the items quoted in the
schedule of this contract reference shall be made to the latest Indian Standard
specifications, I.R.C. codes, and MORT & H specification if any of items of this
contract do not fall in reference quoted above, the decision and specifications
as directed shall be final.

42) Load Testing:

The Engineer-in-charge is empowered to order load testing of the
building, bridges or their component whenever there is a doubt about the
workmanship or the safety of the building component or whenever there is a
need to confirm the workmanship and the safety of the structure by carrying
out load test. The load testing shall be carried out as per the specifications B.R.
58 of the book of standard specifications published by Govt. of Maharashtra
P.W.D. with such specifications as ordered by Engineer-in-charge.

i) The load for such test shall be full dead load (excluding self load of the member
under test) plus 125% maximum design live load (including impact) in cases of
R.C.C. Bridges.

ii) The load testing will be carried out by the Department through a suitable
Competent Agency. Test result from such agency as will be fixed by
Department will be binding on the contractor.

iii) If the result of the load test are not found to be satisfactory, the contractor shall
strengthen the already cast member of reconstruct the members at his cost
and also bear the cost of load test. The decision of the Engineer-in-charge will
be final in this case.

43) Special Conditions:

43.1) The contractor should ensure that all safety precautions are observed by
their labours, working close to the State Highway and while closing the State
Highway precautions are taken including insurance etc. for their labours at the
cost of the contractor etc. If any accident occurs to the labour etc, no claim in
this regard on whatsoever account shall be entertained and this decision of the
department will be final and conclusive.

43.2) During the execution if there is any change in:

(i) Span Arrangement.
(ii) Height of substructure and superstructure above ground level.
(iii) Change in the depth of foundation, change in plinth height, tendered
rate for respective items will hold good and no extra claims shall be entertained
on this account.
43.3) Contractor shall observe the rules and regulations imposed by traffic police for smooth flow of traffic on the diversion road and shall not be entitled for claim any compensation arising thereof.

43.4) In case of delay in handing over the land required for the work. Due to unforeseen cause the Contractor shall not be entitled for any compensation what-so ever from the Government on ground that the machinery or labour was idle for certain period. Contractor may, however apply for extension of time limit which may be granted on the merit of the case.

44) **Mix Design**

44.1) The following instructions shall be followed as regards preliminary design of mix methods of batching of plain cement concrete and reinforced cement concrete. These instructions should be treated as supplementary to the relevant provision in the specifications for the respective items contained in the book of standard specifications and will override the provisions contained therein wherever they are contrary to the following instructions. The preliminary mix design and batching for various grades of concrete shall be governed by the following guidelines.

<table>
<thead>
<tr>
<th>Concrete Grade</th>
<th>Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to M-15</td>
<td>This should only by ordinary concrete. No change may be prescribed for the present practice as regards preliminary design of mix permitting volume batching.</td>
</tr>
<tr>
<td>M-20</td>
<td>Preliminary mix design must be carried out for these mixes. However, weight batching shall be insisted for cement only.</td>
</tr>
<tr>
<td>M-25 and above.</td>
<td>Preliminary mix design must be prepared for such mixes. Weight batching shall be compulsory for cement, fine aggregate and course aggregate.</td>
</tr>
</tbody>
</table>

44.2) For the grades of concrete M-20 and above the preliminary mix design shall be carried in the Govt. laboratory.

(i) The charges for preliminary design of concrete mix shall be entirely borne by the contractor.
(iii) For grades of concrete M-20 and above where cement is to be used by weight, the cost of extra cement required to make up the under weight bags shall be borne by the contractor.

(iv) For the items of concrete of grades lower than M-20 other items in the agreement where cement is not to be used by weightment. The cement bags shall contain cement of 50 Kg. net weight.

44.3) The admixtures such as plasticizers/super plasticizers for concrete grade M-20 and above shall be used as directed by Engineer-in-charge depending upon specific requirements. No extra payments on this account will be admissible.

45) Definitions :- Unless excluded by or repugnant to the contents-

(a) The expression “Government” as used in the tender documents shall mean the Public Works Department of the Government of Maharashtra.

(b) The expression ‘The Chief Engineer’ as used in the tender papers shall mean Chief Engineer, P.W.Region, Amravati.

(c) The expression ‘Superintending Engineer’ as used in the tender papers shall mean the officer of Superintending Engineers ranks (by whatever designation he may be known) under whose control the work lies for the time being.

(d) The expression "Engineer" or "Engineer-in-charge" as used in the tender paper shall mean the Executive Engineer-in-charge of the work. The Engineer-in-charge for this work is Executive Engineer, Public Works Division yavatmal.

(e) The expression ‘Contractor’ as used in the tender paper shall mean the successful tenderer that is the tenderer whose tender has been accepted and who has been authorised to proceed with the work.

(f) The expression ‘contract’ as used in the tender papers shall mean the deed of contract together with all its original accompaniments and those later incorporated in it by mutual consent.

(g) The expression ‘plant’ as used in the tender papers shall mean temporary accessory necessary or considered necessary by the Engineer to execute, construct, complete and maintain the work and all altered, modified, substituted and additional works ordered in the time and the
manner herein provided and all temporary materials and special and other articles and appliance of every sort kin and description whatsoever intended or used therefore.
1) **Construction Machinery/Equipment:**
   1.1) The methodology and equipment to be used on the project shall be furnished by the contractor to the Engineer well in advance of commencement of work and approval of the Engineer obtained prior to its adoption and use.
   1.2) The contractor shall give a trial run of the equipment for establishing its capability to achieve the laid down specifications and tolerance to the satisfaction of the Engineer before commencement of work, if so desired by the Engineer-in-charge.
   1.3) All equipment provided shall be proven efficiency and shall be operated and maintained at all times in manner acceptable to the Engineer-in-charge.
   1.4) No equipment or personnel will be removed from site without permission of Engineer-in-charge.

2) **Work Programme and Methodology of Construction:**
The Contractor shall furnish his programme of construction for execution of the work within the stipulated time schedule together with methodology of construction of each type of work and obtain the approval of the Engineer-in-charge.

3) **Revised Programme of work in case of slippage:**
In case of slippage from the approved work programme at any stage, the contractor shall furnish revised programme to make up to slippage within the stipulated time schedule and obtain the approval of the Engineer-in-charge.

4) **Action in Case of disproportionate progress:**
In case of extremely poor progress of the work or any item at any stage of work which in the opinion of the Engineer can not be made good by the contractor considering his available resources, the Engineer will get it accelerated to make up the lost time through any other agency and recover the additional cost incurred, if any, in getting the work done from the contractor after informing him in writing about the action envisaged by him.

5) **Setting Out:**
Setting out the work as spelt out in clause 109 of Ministry’s Specification for Road and Bridge Works (2nd Revision) will be carried out by the Contractor.

6) **Public Utilities:**
Action in respect of public utilities will be taken by the contractor as envisaged in clause 110 of MORT&H Specification of Road and Bridge work (2001).
7) **Arrangement for traffic during construction:**
Action for arrangement for traffic during construction will be taken by the contractor as envisaged in the contract documents and spelt out in clause 112 of M.O.R.T.&H. Specification of Road and Bridge work (2001).

8) **Quality Control:**
The responsibility of achieving quality of work will be on the contractor who will take actions as stipulated in P.W.D. Standard Specifications of Buildings and as per Schedule 'C' of Tender Document.

9) **Govt. of Maharashtra, PWD, Standard Specifications:**
PWD Standard Specifications, Govt. of Maharashtra will form part of the contract documents and the contractors will be legally bound to the various stipulation made therein unless and otherwise specifically relaxed or waived wholly or partly through a special clause in the correct documents.

9.1) **MORT&H specification for Road and Bridge work (2001) Fourth Revision:**
MORT&H Specification of road and Bridge work (2001) will form part of the contract documents and the contractors will be legally bound to the various stipulation made therein unless and otherwise specifically relaxed or waived wholly or partly through a special clause in the correct documents.

9.2) **Applicable in case of Road Work only:**
The details of the paver, specified in the M.O.R.T.&H. clause 504.3.5 third revision be relaxed in the case of bituminous macadam MORT&H–IVth Revision (Clause 504) where it is going to be covered by any wearing course other than semidense Bituminous macadam (Clause 507)/ Bituminous concrete (Clause 509) with the provision that it can be laid by means of self propelled mechanical paver with suitable screeds capable of spreading, temping and finishing the mixture to the specified lines grades and cross section.

10) **Insurance of Contract work.**
Contractor shall take out necessary Insurance Policy/Policies (Viz contractors all risk Insurance policy, Erection all risk, Insurance policy etc. as decided by the Directorate of Insurance) so as to provide adequate insurance cover for execution of the awarded work for total contract value and complete contract period compulsorily from the, “Directorate of Insurance, Maharashtra State, Mumbai” only. Its postal address for correspondence is “264, MHADA, First Floor, Opp. Kalanagar, Bandra (East) Mumbai-400051”. (Telephone Nos. 26590403/26590690 and Fax Nos. 26592461/26590403. Similarly all workmen appointed to complete the contract work are required to insure under workmen’s compensation insurance Policy. Insurance Policy/Policies taken out from any other company will not be accepted. If any Contractor has effected Insurance with any Insurance Company, the same will not be accepted and the amount of premium calculated by the Government Insurance Fund will be recovered directly from the amount payable to the Contractor for the
executed contract work and paid to the Directorate of Insurance Fund Maharashtra State, Mumbai. The Director of Insurance reserves the right to distribute the risk of insurance among the other resources.

10(A) **INSURANCE**

The contractor shall provide in the joint names of the Employer and the contractor insurance through Director of insurance Govt.of Maharashtra from the start date to the end of the Defects Liability Period for the following events which are due to the Contractors risks. The Contractors all risk policy and the workmen insurance policy shall be within the Maharashtra insurance Fund only as stated above.

i) Loss of or damage to the work, plant and materials
ii) Loss of or damage to Equipment
iii) Loss of or damage of property (except the work, plant, materials and Equipment) in connection with the contractor and
iv) Personal injury or death

Policies and certificates for insurance shall be delivered by the contractor to the Engineer for the Engineer’s approval before the start date. All such insurance shall provide for compensation to be payable in the types and proportions of currencies required to rectify the loss or damage incurred.

If the contractor does not provide any of the policies and certificates required, the Employer may effect the insurance which the contractor should have provided and recover the premiums the Employer has paid from payments otherwise due to the contractor preferably from first running bill of 1% of the contract amount or, if no payment is due, the payment of the premiums shall be a debt due.

Alteration to the terms of an insurance shall not be made without approval of the Engineer. Both parties shall comply with any conditions of the insurance policies.

10(B) **Labour License** :- It is obligatory on the part of the contractor that offer issue of work order Labour License from concerned Labour department has to be obtained within 60 days.

11) The contractor shall provide, furnish, maintain and remove on completion of the work a suitable site **office-cum-laboratory** on the work site for use of Executive Engineer’s representative. The site office cum laboratory shall be separate rooms of sufficient area. It shall be as directed by Engineer in charge. It may have brick wall & asbestos or corrugated sheet roof with false ceiling, paved floor should be 0.45 mtr. above ground level, laboratory shall have working platform, necessary electrical provision and water supply arrangement. Arrangement of display of drawing should also be made. He should provide suitable latrines, urinals and
keep them clean daily. This will be included in his offer. Necessary laboratory equipment, office furniture shall be provided by the contractor at his own cost. After completion of work it will be property of contractor. It should be removed from site of work at his own cost.

12) The contractor should produce the no objection certificate obtained from the Maharashtra Pollution Control Board before starting Crusher/Drum Mix Plant on the work site.

13) **Supply of Colour Record Photographs and Album:**

The contractor shall arrange to take colour photographs at various stages/Facts of the work including interesting and novel features of the work as desired by the Engineer-in-charge. Photographs shall be of acceptable quality. Each photograph taken shall be standard post card size, marked in albums of acceptable quality. Also the C.D. or the same shall be supplied for each photograph in the Album shall be suitably captioned.

The contractor shall arrange for taking video films of important activities of the work as directed by the Engineer-in-charge during the currency of the project and editing them to a video film of playing time not less than 60 minutes and up to 180 minutes as directed by the Engineer-in-charge. It shall contain narration of the acceptable quality and the film shall be capable of producing colour pictures.

It shall be considered as incidental to the work and no additional payment, whatsoever will be made for the same.

14) Notwithstanding whether it as per the rules of the traffic authorities or otherwise the agency should ensure that their vehicles, the term includes all construction machinery towards or self driven are equipped with the following to emphasize / traffic safety.

i) Reflector 4 Nos.

ii) Tail lamp 2 Nos.

iii) One of the following slogan:

a) जल्दी करती काम खराब, होगा में आयें लाट सहाय

b) दरुचा एक सुविधा करण तुम्ही नामागा

c) **Drink and drive, you won’t survive**

d) बाहन व्यवस्थीत, जीवन सुरक्षित छ
e) एक ज्योत को एक आयुष्ट
f) जेंदे तथा विषय तथा अन्य तात्त्विक निर्देश

}
In absence of the above requirements and failure of the agency to fulfill them in a reasonable time the Executive Engineer in charge of the work will get it done from the Mechanical wing of the P.W. Department and would recover the cost from the amount due to the agency at the following rates.

i) Reflector  Rs. 25/- Per Nos.

ii) Tail Lamp  Rs.175/- Per Nos.

iii) Slogan      Rs.75/- Per Nos.

15) The decision of the Engineer -in-charge will be binding and conclusive in this matter.

16) After award of contract, contractor will have to provide and fix the information boards showing name, tender cost, period of completion, Name and Telephone number of agency and Executive Engineer and other details as directed by Engineer-in-charge as per drawing attached. It is incidental to work & no Extra payment will made to the contractor.

17) **Laboratory Set up**
   
   **Field Laboratory:**

17.1) The Contractor for the purpose of testing of material shall arrange to provide and maintain fully furnished and adequately equipped field laboratory of adequate floor area. The field laboratory shall preferably be located adjacent to site or as directed by the Engineer-in-charge. The field laboratory shall be provided with amenities like water, electric supply etc. to be arranged by Contractor.

17.2) The floor space requirement shall include office space for Engineer & Contractor’s representative, storage of samples, installation of equipment, laboratory table, cup boards, working platform of size 1m x 10 m working space for carrying out various tests, curing tank, wash basin, toilet etc. and the minimum furniture such as office tables & chairs for material engineers, stools, working tables, store accessories.
17.3) The Cost of Construction of laboratory at work site and cost of furniture, electrical equipments fittings during the currency of Contract is incidental to work and no separate payment will be made for the same to the contractor.

17.4) If the contractor fails to establish the laboratory within 60 days from the issue of work order an amount of Rs. 5.00 lac will be recovered from forth coming bill payable to the Contractor.

17.5) After completion of work the LABORATORY EQUIPMENTS WILL BE PROPERTY OF THE Contractor. The contractor shall clean all site by dismantling site office / laboratory and removing all the debris from the site of work after completion of the work.

17.6) The laboratory established by the contractor shall be manned by a qualified materials Engineer/Civil Engineer assisted by experienced technicians and the setup shall be got approved from the Engineer-in-charge.

17.7) The Contractor shall prepare printed proforma for recording readings and results of each type of tests. Such formats shall be got approved from the Engineer-in-charge. The Contractor should keep a daily record of all the tests carried out by him. Two copies of the test results should be submitted to Engineer-in-charge within 7 days from the date of testing for examination and approval One copy of test results will be returned to the Contractor by the Engineer-in-charge for keeping the record of test results in acceptable manner at site of work.

17.8) All quality Control register/records shall be maintained by the Contractor and checked by the Engineer-in-charge or his representatives regularly.

17.9 After completion of work the laboratory equipments will be the property of the contractor. The contractor shall clean all site by dismantling site office/laboratory and remaining all the debris from the site of work, after completion of the work.

18) Set up of equipments:

18.1) The contractor shall have at least following equipments calibrated to the latest date in the laboratory so established. The Contractor will have to carry out the calibration of the equipments from the approved agency as and when directed by the Engineer-in-charge at his own cost in cases where the calibration validity stands expired.

CEMENT :-
Cement to be used for works shall comply of the following with the prior approval of Engineer.

a) Ordinary Portland cement 43 grade Conforming to IS: 8112 used in the manufacture of exposed surface of concrete of any element of a structure shall be from the same factory. Independent testing of cement used shall be done by the contractor at site and in the laboratory approved by the Engineer before use. Any cement with lower quality than those shown in manufacture’s certificate shall be debarred from use. In case of finally ground cement or imported cement, the Engineer may direct the contractor to satisfy him as to the acceptability of such cement, especially with regard to creep and shrinkage effect. Any consignment or part of a consignment of cement which has deteriorated in any way shall not used in the works and shall be removed from the site by the contractor without charge to the employer.

Cement shall be transported, handled and stored on the site in such manner as to avoid deterioration, contamination. Each consignment shall be stored separately, so that it may be readily identified and inspected and cement shall be used in the sequence in which delivered at site. The contractor shall prepare and maintain proper records on site in respect of the delivery, handling storage and use of cement and these records shall be available for inspection by the Engineer at all times.

b) Use of Portland Pozolana Cement Conforming to IS : 1489 ( Part-I 1991) permissible, subject to the following conditions :-

i) For the concrete containing PPC Cement, the curing period shall not be less than 14 days.

ii) The stripping time for removal of form work shall be as under.

2) **Sand**
   Silts content of sand shall not more than permissible limit. If it is found more than the permissible limit, it should be washed at site by contractor at his own cost.

3) **T.M.T. STEEL/HYSD STEEL**
   High Yield Strength Deformed (T.M.T.) bars shall comply with IS:1786 grade Fe-415 and mild steel bars shall comply IS. 432.
   All reinforcements shall be free from rust, loose mill scale or coats or oil, paints etc. placing in position for concreting. The Agency should use the Steel manufactured by the Main Producers or authorised conversion agents only. No rerolled steel shall be incorporated in the work.

4) **Rejection of Materials, Not Conforming to Specification.**
   Any stock or batch of materials (s) of which samples (s) does not confirm to the prescribed test and quality shall be rejected by Engineer or his representative and such material shall be removed from site by the contractor at his own cost. Such materials shall not be made acceptable by modifications.
   Materials not corresponding in character and quality with approved samples will be rejected by the Engineer or his representative and shall be removed from site immediately and will not be allowed to use for any component of work.

4) **Bulk/Packed Bitumen**
   i) Only 60/70 (VG 30) grade bitumen shall be used.
   ii) Bitumen brought on site shall conform to IS.73 of latest edition
   iii) Testing has to be arranged by contractor from recognized Govt. laboratory at his own cost for all tests mentioned in IS-73 of latest edition.
   iv) The Contractor shall use Bulk Bitumen obtained from any Government Refinery only.
   v) The material brought by agency will be open to check by Executive Engineer or his representative at all time. He should submit bill from Refinery itself only. No other bill than refinery’s unit will be accepted by Department and no claim of contractor will be admissible.
   vi) For other activities storage weighments specification No. Rd. 42 Pg.217 of Standard Specification of P.W.D. will be referred. Contractor has to arrange own static tank for storage of bulk bitumen.
vii) If it is decided to procure bulk bitumen the contractor shall intimate Engineer-in-Charge well in advance. Consignment will not be allowed to download until its weight is checked on weigh bridge by Departmental persons.

5) **Rejection of Materials Not Conforming to Specification.**

   Any stock or batch of materials (s) of which samples (s) does not confirm to the prescribed test and quality shall be rejected by Engineer or his representative and such material shall be removed from site by the contractor at his own cost. Such materials shall not be made acceptable by modifications. Materials not corresponding in character and quality with approved samples will be rejected by the Engineer or his representative and shall be removed from site immediately and will not be allowed to use for any component of work.

ADDITIONAL CONDITIONS FOR MATERIAL BROUGHT BY THE CONTRACTOR

1) All the material required for construction for work shall be arranged by the contractor at his own cost. The samples of material to be procured shall be got approved by the Engineer-In-Charge. Material as per approved samples shall only be procured.

2) The contractor shall submit periodically as well as on completion of work, an account of all materials brought by him in a manner as directed by Engineer-In-Charge. The contractor shall also furnish monthly account of materials. A separate register shall be maintained on site for recording daily item wise receipt and consumption of Cement, Steel and Asphalt used by him, also item wise consumption of other materials used. This register shall be signed daily by the contractor or his representative and representative of Engineer-in-Charge.

3) All the materials required for the work shall be brought by the contractor at his own cost. In each case, certificate for its quality and quantity shall be produced by the contractor and samples of each material shall be got tested from Government Laboratory as mentioned in condition at serial No. 39(4)(1) (General condition) by the contractor at his own cost and the test results of samples shall be supplied to the Department. The material not conforming to the required standard shall be removed at once from the site of the work by the contractor at his own cost.

4) Testing of all construction material shall be carried out as per required frequency and specifications. and the charges for testing shall be borne by the Contractor.

5) The contractor shall construct shed/sheds as per direction of the Engineer-In-Charge of the work for storing the materials brought at site. The material shall be taken out for use in the presence of the departmental representative only.

6) The contractor shall make his own arrangement for the safe custody of the materials which are brought for construction of work.

7) The contractor shall not transfer any material once brought at work site without prior written permission from Engineer-In-Charge.

8) In case the materials brought by the contractor become surplus owing to the change in the design of the work, the materials should be taken back by the contractor at his own cost after prior permission of the Engineer-In-charge.

9) The charges for conveyance of materials from the place of delivery to the site of work and the actual spot on work site shall be entirely borne by the contractor. No claim on this account shall be entertained.
10) The contractor shall furnish the account of asphalt brought by him at each time before placing orders for further supply. Also the same should submit on completion of the work, final account of the material used by him to the Department. This account will be scrutinized by the Engineer-In-Charge.

11) Contractor should bring the bitumen from Govt. refinery only

12) All empty asphalt drums shall be the property of contractor and the same shall be removed immediately after completion of work.

13) Agency shall ensure the laying temperature of hot mix material as specified & accordingly he shall make necessary arrangement for preventing loss of temperature of hot mix material during transit from location of drum mix plant to work site.

14) The agency should use the steel manufactured by the main producer only.

15) The contractor shall procure the RCC pipes if required for this work from M.S.S.I.D.C. only. Proof of purchasing of pipe should be submitted.

16) The contractor should inform the schedule of arrival of Bouzers to the Engineer-in-charge time to time.

17) The contractor shall also arrange to provide field laboratory at plant site along with all necessary equipment & materials for testing the grade of bitumen procured by him.

ADDITIONAL CONDITIONS FOR BITUMEN

1) The contractor shall use Bulk Bitumen, VG30 (60/70) grade received from the Government Refinery only. Bitumen received as above will be entirely consumed in the respective item & work as directed by the Engineer-in-charge.

2) Conveyance charges of Bitumen, VG30 (60/70) grade (including loading/unloading etc.) from Government Refinery to the hot mix plant site will be borne by the Contractor.

3) The Contractor should be aware that delay may occur in getting the bulk asphalt to be supplied at the refinery. They are, therefore, advised to indent for their requirement, sufficiently in advance allow for the period usually taken for supplying Bulk Bitumen.

4) The contractor shall submit periodically as well as on completion of work, an account of all materials issued to him in a manner as instructed by the Engineer-In-Charge. In addition, a separate register shall be maintained.
on site for recording daily item wise asphalt consumption of the work (Giving details of quantities of items of executed and asphalt required for each of them) as directed and shall be signed daily by the contractor or his representative, and got signed daily from the representative of the Engineer-in-Charge.

5) The bitumen shall be made available on working days only during working hours. Bulk Asphalt will be delivered as per the rules of the concerned Govt. refinery. The contractors are expected to know all the rules and regulations framed by the refineries in this behalf.

6) The Contractor should note that the bouzars when received from Government are always unloaded at the plant in the presence of the Junior Engineer/ other representative of the Department during 8.00 A.M. to 6.00 P.M. only. He should arrange to give advance intimation in this behalf to Engineer in-charge so that the arrangement to depute the Jr. Engineer /Representative at the plant site can be made.

7) Since the work lies in agricultural area the contractor shall have to make adequate arrangement for regulating the farmers and their animals by providing barricading whenever necessary and by displaying adequate number of requisite sign, and caution board etc. The work shall have to the planned properly to avoid any inconvenience to the local people.

8) A detailed programme of completion of work shall be enclosed with the tender.

The contractors should note that once, the work is started, he will not be allowed to operate his plant, for any work other than the work of Executive Engineer, Special Projects (P.W.) Division Yavatmal. Without the specific permission in writing from the Executive Engineer, Special Projects (P.W.) Division Yavatmal. Any breach of this condition will be seriously dealt with.

ATTENTION TO THE CONTRACTOR

All the relevant specification, clauses, Conditions and Provisions printed elsewhere in the Tender document shall be applicable alongwith following additional conditions for this tender.

1. If the contractor fails to comply the provisions of safety measures as per clause 20 on P-83 to 84 or elsewhere in the tender then the 'Contractor' shall be liable for penalty @ Rs.1000/- (Rs. One Thousand only) per such incident for first time, Rs. 5,000/- (Rs. Five Thousand only) per such incident 2nd time and onwards the fine shall be as decided by the Engineer in charge but not less than Rs. 5000/- per incident brought to the notice of 'Contractor'.

Contractor

No of correction

Executive Engineer
2. If contractor intends to use the electricity, water supply facilities & other utility services from the existing services in the compound / campus of the work then 'Contractor' shall obtain "No objection certificate" from the User department / authority with the terms and conditions laid down or asked by the user department. The mode of payment for such facilities availed by the "Contractor" shall be decided mutually between user department and 'Contractor' and the copy of such consent shall be made available to the P.W.D. The contractor shall submit N.O.C. in lieu of no outstanding amount on account of charges to be paid to the user department for use of electricity, water supply and any other utility services.

3. Contractor shall not claim for any expenditure incurred towards payments of electricity charges, water charges or any other utility services used by the 'Contractor' from the user department or from any other source, as the tender rates are all inclusive of such charges.

4. The work shall be executed in a manner that, regular working of the user department and the allied offices shall not be hampered or interrupted for which the most of working shall required to be carried out at night hours. No extra claim on account of "working at night" shall be considered or entertained.

5. All the materials shall be of reputed brands and shall be got approved before hand from the Heritage 'Architect' and by the Engineer-in-charge.

6. All the materials shall be tested from time to time, according to frequency chart attached in the tender. After producing satisfactory test reports, contractors shall be reimbursed the necessary payment by the department after submission of bills pertaining to testing charges in original.

7. In case the location of work is changed from ground to first or second or third floor as per directions of the user department and/or P.W.D. Engineer's or Architect's instructions, no extra claim on account of change of location shall be entertained.

8. The dismantled material such as wood, structural steel work, ceramic or marble mosaic tiles/Mangalore tiles, doors, windows, wooden beams, joists, rafters, purlins, parts having Architectural/Heritage value and any other dismantled material informed by the Engineer in charge from time to time shall be removed carefully by the contractor. The contractor shall remove the dismantled material immediately so as two clear the working space & premises. The decision taken in this regard by the "Engineer in charge" shall be final and binding on the contractor.
9. The successful ‘Contractor’ shall submit more realistic and detailed CPM / PERT bar-chart within 15 days from the date of intimation of acceptance of his offer. The bar chart shall comply for all the minute requirements i.e. Day wise activity, Procurement of materials, availability of particular labours etc.

10. Contractor shall not employ any person who is under the age of 18 years. The Engineer in-charge or his representative is authorized to remove any such person from the site of work and no responsibility shall be accepted by Government for any delay caused in completion of the work by such removal.

11. The work shall be started immediately after issue of work order.

---

**DECLARATION OF THE CONTRACTOR**

I/We hereby declare that I/We have made myself/ourselves thoroughly conversant with the local conditions regarding all materials and labour on which I/We have based my/our rates for this work. The specifications, local existing condition and lead of the materials on this work have been carefully studied and understood by me/us submitting the tender. I/We undertake to use only the best materials approved by the Executive Engineer-in-charge of the work or his duly authorized representative before starting the work and to abide by his decision. I/we shall maintain rectify the entire works as per standard specification of P.W.D. (Red Book) and M.O.R.T. & H. Specification as soon as the damage occurs upto the expiry of defect liability period without putting forth any reason for the failure.

Form No. VII
INFORMATION OF TECHNICAL PERSONNEL

Proposed position: ...........................................................................................................

Name of firm: ......................................................................................................................

Name of staff: ......................................................................................................................

Profession: ............................................................................................................................

Date of Birth: ..........................................................................................................................

Years with Firm/Entity: ...........................................................................................................

Membership of Professional Societies:

Detailed Task Assigned:

Key Qualifications:
[ Give an outline of staff member’s experience and training most pertinent to tasks on
assignment. Describe degree of responsibility held by staff member on relevant previous
assignments and give dates and locations. Use about half a page ]

Education:
[ Summarise college/University and other specialized education of staff member, giving
their names, dates attended and degrees obtained. Use about one quarter of a page ]

Note: -
a) Personnel is to affix his recent photograph on first page of CV
b) Complete address and phone number of the personnel is to be provided
c) Document for proof of age is to be enclosed
d) Document for proof of qualification is to be enclosed
e) Age of the personnel shall not be more than 65 years

Employment Record:
[ Starting with present position, list in reverse order every employment held. List all
positions held by staff member since graduation, giving dates, name of employing
organizations, titles of positions held, and locations of assignments. For experience in last
ten years, also give types of activities performed and client references, where
appropriate. Use about three quarters of a page ]

Languages:
[ For English language indicate proficiency excellent, good, fair or poor, in speaking,
reading and writing ]

ANNEXURE-II

SPECIFICATION FOR BITUMINOUS BOUND MACADAM

**Item**: Providing and constructing 75 mm/ 50 mm thick bituminous bound macadam (BBM) road surface including all materials, preparing the existing road surface, spreading 40 mm stone metal lexicess 30% crusher broken metal + 70% hand broken (by breaking rubber obtained, by blasting) heating and spraying the bitumen 60/70@ 2 kg/sqm, spacing 12 mm size chips, compacting with static roller.

1) **General**:
   The work consists of supply of materials and labour required for providing and laying bituminous bound macadam surface for compacted thickness of 75mm/50mm. The item includes preparing the existing road surface to receive the bituminous bound macadam course i.e. picking the existing W.B.M. surface or application of tack coat on existing B.T. surface spreading of 40mm size metal layer in required thickness with compaction with power roller, heating and spraying bitumen with required thickness with compaction with power roller heating and spraying bitumen with sprayer etc. spreading key aggregates, 12 mm. chips, and final compaction with power roller, etc. complete and finishing in accordance with the requirement of and in close conformity with grades, lines, cross section and thickness as per approved drawings etc. complete.

2) **Diversions**:
   Temporary diversions shall be constructed and maintained by the contractor at his own cost. Diversions shall be watered if dust is likely to blow on to the road being Bituminised.

3) **Materials**:
   (A) **Aggregates**: The aggregates for providing B.B.M. surface shall comply with specification Nos. Rd.41 for 40 mm and 12 mm size metal, and shall normally comply with the following regarding to size and quality of aggregate and grade and quantities of bitumen.
<table>

<td>9.00 Cum</td>
</tr>
<tr>
<td>b) 12 mm size chips</td>
<td>1.20 Cum</td>
</tr>
<tr>
<td>c) Bitumen for grouting I.S. penetration or S.65 with (60/70grade) penetration</td>
<td>200 Kg</td>
</tr>
<tr>
<td>d) Tack coat for existing Bitumen surface with 60/70 bitumen</td>
<td>50 Kg</td>
</tr>
</tbody>
</table>

**Note**: 70% Hand broken metal and 30% crusher broken metal of total quantity for 40 mm size metal shall be used.

(B) Bitumen:

The bitumen shall be paving bitumen of suitable penetration grade within the range S-35 to S-65 i.e. 60/70 as per Indian Standards Specifications for “Paving Bitumen” IS 73-1992.

4) Preparation of Base:

Any pot holes in the existing bituminous road surface and broken edges shall be patched well and the surface shall be brought to correct level and camber with additional metal and bitumen as required which will be paid separately. Before starting the work the bituminous surface shall be swept clean of all the dirt, mud cakes, animal droppings & other loose foreign material.

If so required by the Engineer, the contractor shall keep the side width & nearby diversion watered to prevent dust from blowing over the surface to be bituminous. Existing water bound macadam surface shall be picked for and surface loosened for a dept of 2.5 cm and the picked surface shall be brought approximately to the correct camber and section Edge line shall be correctly marked by dog belling the surface to form a continuous the notch.
There shall always be sufficient length of prepared surface ahead of the bituminous surfacing operations as directed by the Engineer to keep these operations continuous.

5) **Tack Coat on bitumen surface:**

Applying tack coat for existing B.T. surface only at the rate of 50 kg/100 m² as per specification No. Rd-47.3.3.

6) **Picking of existing W.B.M. Surface:**

Picking of existing W.B.M. surface for receiving bituminous bound macadam as per Rd. 33.

7) **Spreading and Compaction**

7.1 **Spreading of 40 mm metal** (70% Hand broken & 30% crusher broken): - 40 mm metal shall be spread evenly at the specified rate of 9 cubic metres/6 cubic meter per 100 squares of area so as to form a layer over the width of road with correct camber/super elevation as required. Any foreign matter, organic matter, dust, grass etc. shall be removed immediately. The sections shall be checked with camber board and straight edge batten etc. Any irregularities shall be made good by adding aggregates in case of depressions and removing aggregates from high spots.

7.2 **Compaction of 40mm size metal:** - The surface of 40 mm metal layer after bringing to necessary grades and sections shall be rolled with the use of 8 to 10 tonnes power roller. Roller shall commence from the edges and progress toward the centre longitudinally except on super elevation portion it shall progress form the lower to upper edges parallel to the centre line of pavement. Whether the roller has passed over the whole area and high spot or depressions which become apparent shall be corrected by removing or adding aggregates. The rolling shall then continued till the entire surface has been rolled to desired compaction such that there is no crushing of aggregates and all roller marks have been eliminated. Each pass of roller shall uniformly overlap not less than one third of the track made in the preceding pass.

8) **Application of Bitumen:** Bitumen of I.S. grade supplied for the work shall be heated to temperature of 177 Celsius to 191 Celsius (350 F to 375 F) in a bitumen boiler and temperature shall be maintained at the time of actual application. The hot bitumen shall be applied through a pressure on the road surface uniformly at the rate of 200 kg. Per 100 sqm. The road surface shall be divided into suitable rectangles marked by chalk so as to ensure correct rate of application of the bitumen.

9) **Key Aggregates:**

On Completion of bitumen application, 12 mm size key aggregates shall be spread immediately at a uniform rate of 1.8 cubic meters/ 1.2 cubic meters per
100 sqm. of area when entire surface in hot condition Brooms shall be used to ensure even distribution of key aggregates.

10) Final Compaction:

Immediately after spraying of bitumen and spreading of key aggregates, the surface shall be rolled with a power roller to obtained full compaction and to force the bondage of key aggregates in to the interstice of the course aggregate. The rolling shall continue till the asphalt surface hardens and key aggregates stop moving under power roller.

11) Surface Finish and Quality Control:

The surface finish shall conform to requirements of clause 902 of specification for roads and bridges by Ministry of surface Transport (Copy enclosed) Quality control Test and their frequencies shall be as per table below.

<table>
<thead>
<tr>
<th>Sl.No.</th>
<th>Test</th>

</tbody>
</table>
12) **Item to Include:**

i) Diversions unless separately provided in the tender

ii) Preparing the road surface.

iii) Applying tack coat on existing B.T. or picking the existing W.B.M. surface.

iv) Supplying spreading and compaction of 40 mm and 12 mm size aggregate.

v) Supplying, heating and spraying of bitumen.

vi) Supplying and spreading and compaction of 12 mm size chips (By Power roller.

vii) All labour, materials, including bitumen and aggregates used of tools, plants and equipment for completing the item satisfactorily.

13) **Mode of Measurement and Payment.**

The contract rate shall be for 1.00 Sqm. The measurements shall be for the width of the road as executed, limiting it to the width specified or as ordered by the Engineer and the length measured along the centerline. The measurement dimensions shall be recorded correct upto two places of decimals of a meter and the area worked out correct upto one place of decimal of a Sqm.
ANNEXURE-III

Specifications for Traffic Safety Measures During Widening of Roads where traffic can be passed over part width

Providing Traffic Safety Measures on Road during Widening of roads Comprising of Traffic Sign Boards and devices as per detailed design, drawing, specification and as directed by Engineer-in-charge.

SPECIFICATIONS :-

The item includes providing traffic safety arrangements required for traffic control near has stretch of road where widening work is being taken up, before actual start of widening work of road. The contractor will have to provide the traffic safety arrangements as per the detailed drawing. The traffic safety arrangements will have to be got approved from the Engineer-in-charge by the Contractor before taking any construction activities for Widening of works.

The Engineer-in-charge shall get himself satisfied about the traffic safety arrangement provided on the work site before allowing contractor to dismantle the existing structure and a certificate to get effect shall be recorded in the Measurement Book.

A) The Sign No. 1 “SPEED LIMIT (20)”shall be placed at a distance of 120 m away from the point where the transition of carriageway begins. The Sign Board shall be of size 60 cm dia. Having white background and red border and the numericals shall be in black colour as per IRC 67-1977. Distance between Sign No.2 shall be minimum 20 m.

B) The Sign No.2: “NARROW ROAD AHEAD” shall be placed at a distance of 80 m away from the point where transition of carriageway starts. The Sign board shall be of an equilateral triangle of size 90 cm. having white background. Retro reflective border in Red colour and non reflective symbol of black colour as per IRC: 67-1977.

C) The sign No.3: The sign board indicating “MAN AT WORK” shall be placed at a distance of 40 m. away from the point where the transition of carriageway starts.. The sign board shall be of an equilateral triangle of size 90 cm. having white backgrounds. Retro reflective border of Red colour and non reflective symbol of black colour as per IRC 67-1977.

D) The sign No. 4: The board displaying the message “GO SLOW-WORK IN PROGRESS” shall be placed near point of transition of carriageway. The sign board shall be of size 1.0m x 1.0m having red background and message in white colour.

F) Retro Reflective Strong Inviolable Stand Type Barrier painted black and having white Retro Reflective Strips for closer of traffic shall be placed to cover the entire width of carriageway including shoulder as per drawing. The Barricades shall not be removed unless permission is given by the responsible officer of the rank not less than Sectional Engineer. The Barricade shall have two plates of size 1.30 x 0.20m painted...
black and shall have white Retro Reflective Strips and mounted on angle iron stand of 1.0 m height.

G) Yellow light flasher shall be kept lit from sunset to sunrise, 2 nos. along with white painted line and 2 Nos. at barriers on both sides as indicated in the drawing.

H) Informatory sign board indicating name or work, estimated cost, completion period defect liability period. Name of contractor with telephone no. Name of Engineer with telephone no. shall provided between sign board no.4 and the barricade. The Sign board shall be having green back ground and white messages retro reflective as per IRC :67-1977.

J) This is incidental to work (being Safety Measures) and no payment will be made on account of work.
In consideration of the GOVERNOR OF MAHARASHTRA (hereinafter referred to as “THE GOVERNMENT”) having agreed to exempt to ______________ (hereinafter referred to as “THE CONTRACTOR”) from depositing with the Government in cash, the sum of Rs._______ (Rs. __________________________ only) begging the amount of Security Deposit payable by the Contractor to the Government under the terms and conditions of the Agreements dated the __________ day of ______ and made between the Government of the one part and the Contractor of the other part (hereinafter referred to as “the said Agreement”) for ______ as security for the observance and performance by the contractor of the terms and conditions of the said agreement on the contractor furnishing to the Government a Guarantee in the prescribed form of a Scheduled Bank in India being in fact these presents in the like sum of Rs. ___________ (Rs._____________________________ only. We ___________________________ Bank Limited registered in India under __________________________ Act and having one of our local Head Office at __________________________ do hereby.

1) Guarantee to the Government -
   a) Due performance and observance by the Contractor of the terms, covenants and conditions on the part of the Contractor contained in the said Agreement, and

   b) Due and punctual payment by the contractor to the Government of all sums of money, losses, damages, costs, charges, penalties and expenses payable to the Government by the Contractor under or in respect of the said Agreement.

2) Undertake to pay to the Government on demand and without demur and not with standing any disputes raised by the Contractor(s) in any suit or proceeding filed in any Court or Tribunal relating thereto the said sum of Rs. __________ (Rs. __________________________ only)

Contractor No of correction Executive Engineer
or such less sum as may be demanded by the Government from use our liability hereunder being absolute and unequivocal and agree that.

3)a) The guarantee herein contained shall remain in full force and effect during the subsistence of the said Agreement and that same will continue to be enforceable till all the dues of the Government under or by virtue of the said Agreement have been duly paid and its claims satisfied or discharged and till the Government certified that the terms and conditions of the said Agreement have been fully properly carried out by the Contractor.

b) We shall not be discharged or released from the liability under this Government by reasons of -

i) any change in the constitution of the Bank or the Contractor, or
ii) any arrangement entered into between the Government and the Contractor with or without our consent,
iii) any forbearance or indulgence shown to the Contractor.
iv) any variation in the terms, covenants of conditions contained in the said Agreement,
v) any time given to the Contractor, or
vi) any other conditions or circumstances under which, in law, a surety would be discharged.

c) Our liability hereunder shall be joint and several with that of the Contractor as if we were the principal debtors in respect of the said sum of Rs. __________ (Rs. _______________ only) and

d) We shall not revoke this guarantee during its currency except with the previous consent in writing of the Government.

IN WITNESS WHEREOF The Common Seal of ______________________________ has been here unto affixed this day of ___________________________________ The common seal of ______________________________

Was pursuant to the resolution of the Board of Directors of the company dated the _______ day of ___________ herein affixed in the presence of who, in token thereof, have hereto set their respective hands in the presence of -
